About Your Organisation

1.1 Member Name

ALICORP S.A.A.

1.2 Membership number

4-0831-17-000-00

1.3 Membership sector

Consumer Goods Manufacturers

1.4 Membership category

Ordinary

1.5 Country

Peru

2.0 Does your company or organisation produce, process, consume or sell any palm oil or any products containing derivatives of palm oil?

Yes

2.1 Please select all description(s) that describe the palm oil-related activities of your company or organisation. Multiple selections are allowed, and not limited to the primary sector of the member's RSPO membership. You will be required to complete the relevant ACOP section based on your selection(s).

- I own and operate oil palm estate(s) and/or palm oil mill(s)
- I represent a palm oil Independent Smallholder farmer Group
- I own and operate independent palm oil mills
- I own and operate independent palm kernel crushing plants
- I trade or broker palm oil, palm kernel oil or related products
- I am a refiner of palm oil or palm kernel oil
- I am a processor of intermediate (B2B) palm oil, palm kernel oil or related ingredients
- I am a B2B distributor or wholesaler of palm oil, palm kernel oil or related products
- I manufacture consumer (B2C) products containing palm oil, palm kernel oil or related products. This includes products manufactured by 3rd party contractors.
- I retail consumer (B2C) products containing palm oil, palm kernel oil or related products
- I operate food retail outlets that use palm oil, palm kernel oil or related products
- I support the sustainable development of the palm oil industry as a conservation and environmental NGO
- I support the sustainable development of the palm oil industry as a social and human development NGO

Processors & Traders

1. Operational Profile

1.1 Please state your company's main activity within the palm oil supply chain.

- Refiner of CPO and PKO
- Palm Kernel Crusher
- Trader with Physical Possession
- Trader without Physical Possession
- Integrated Refiner-Trader-Processor
- Intermediate Products Producer
- Power, Energy and Biofuel Processor
- Animal Feed Producer
- Oleochemicals Producer
- Distribution & Logistics
- Other

Other

2. Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Sourcing is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please include details of all certified and uncertified operations using palm oil, palm kernel oil and related products, owned and/or managed by the member and/or all entities that belong to the group.

Certified operation:

* Alicorp S.A.A., Refinery Plant Fully-owned (100%) : Planta Refinería Oleos Lima - COPSA. We receive crude palm and palm kernel oil as raw material and process them so that they are part of the formulations of oils, butters, margarines, Cookies, cookie coating formulations, Panettones, some frozens like pre-cooked potatoes, and soaps.

Non certified operations using palm oil, palm kernel oil and related products:

PERÚ:

* Global Alimentos S.A.C. - palm butter

* Industrias Teal S.A. - Butter and derivatives from Copsa for cookies and Panettones

* Masterbread S.A. - palm butter

URUGUAY:

* Alicorp Uruguay S.R.L. - Trader without Physical Possession

* Atlantis S.A. - palm kernel oil is used in the toilet soap plant

ARGENTINA

* Alicorp Argentina S.C.A. - palm kernel oil is used in the toilet soap plant

BOLIVIA:

* Industrias del Aceite S.A. - We import from Peru palm-based butter, also for soaps based on palm; we do not re-export the products only commercialize in Bolivia

BRASIL:

* Pastificio Santa Amalia S.A. - We use palm oil in premixes for cakes and fried pastries like to fry Instant Noodles.

CHILE:

* Vitapro Chile S.A - we use a small proportion of certified palm and kernel oils and derivatives (CU-RSPO SC 816033) for salmon diets in the extrapellet process

2.1.1 In which markets do you sell goods with palm oil and palm oil -related products?

Latin America

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)

2.2 Volumes of uncertified and certified palm oil, palm kernel oil and related product sourced in the year

Description	Tonnes
Crude palm oil, including derivatives refined from CPO (tonnes)	98653.0
Crude palm kernel oil, including derivatives refined from CPKO (tonnes)	3928.0
Crude palm kernel expeller (tonnes)	0.0
Total	102581.0

2.3 Volume of RSPO-certified palm oil, palm kernel oil and related products sourced in the year (tonnes):

Description	Crude Palm Oil (CSPO) and CSPO Derivatives	Crude Palm Kernel Oil (CSPKO) and CSPKO Derivatives	Palm Kernel Expeller (CSPKE)
RSPO Credits from Mill / Crusher	0.0	0.0	0
RSPO Credits from Independent Smallholder	0.0	0.0	0
Mass Balance (MB)	0.0	0.0	0
Segregated (SG)	0.0	0.0	0
Identity Preserved (IP)	0	0	0
Total	0.0	0.0	0

2.4 According to the volume information you have provided in Question PT.2.2 and Question PT.2.3, your company's certified palm oil, palm kernel oil and related products uptake is:

0.00%

2.4.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake calculated in PT.2.4. This may include changes due to business environment, evolving nature of operations or variations due to stock positions

Does not apply.

3. TimeBound Plan

3.1 Which year did your company achieve/obtain (or expects to achieve/obtain) the RSPO supply chain certification or RSPO trader/distributor licence?

2021

3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products?

2021

3.2.1 If the previous target year has not been met, please explain why.

Does not apply.

3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities.

2030

3.3.1 If the previous target year has not been met, please explain why.

Alicorp is committed and making progress to achieve RSPO sustainability standards, to achieve its commitment in 2030. So, in 2018 we conducted the process and obtained the Mass Balance RSPO certification for our palm oil refinery. We are also committed to promote a local sustainable palm oil value chain in Peru. Thus in 2018, as a starting point, we conducted an initial diagnosis to assess the gaps of our palm crude suppliers towards sustainability standards. In 2019 we offered and then financed consultancies with Proforest and Solidaridad as one-on-one work to our suppliers, in order to make a deep dive diagnosis that for them to acknowledge their sustainability gaps and determine suggested action plans for gaps closure.

At the beginning of 2020, we started to work with those suppliers who showed more interest and commitment, exploring the possibility to consolidate alliances to implement the action plans for gaps closure with a Program to cover most of our suppliers (mills and their sourcing). Nevertheless, the COVID-19 emergency affected all actor's capabilities to make progress towards this goal. Mainly because of the change in context that forced everyone to rethink scenarios that were not previously contemplated and that require immediate attention due to the economic impact associated with pandemic.

On the last quarter 2020, we decided to go for a 3-year program, leaded by Solidaridad and Nes Naturaleza. Therefore, we invited all our mill suppliers, and their rep palm growers to a session to explain the program and the conditions, which were signing an agreement to confirm their commitment to participate.

The launching event (Jan 2021), for the first-year program, has been announced with the participation of LATAM RSPO representatives: Francisco Naranjo and Diego Pierrend, and the Directors from Solidaridad and Nes Naturaleza. We accomplished the involvement of reps from mills and palm growers, for about 69% of our total volume palm product.

Also, due to some clients demand, we decided to import a first certified palm product batch, during 2021.

3.4 Year expected to only source 100% RSPO-certified palm oil and oil palm products.

2030

3.4.1 If target has not been met, please explain why.

Achieve RSPO certification for our palm crude suppliers represents a long-term intervention considering this productive sector involves a very large suppliers base represented by small farmers, with lack of resources to invest in gaps closure. Also, the COVID-19 emergency affected all actor's capabilities to make progress towards this goal.

At the moment, we started the Sustainable Palm Program led by our Partners Solidaridad and Nes Naturaleza with most of our suppliers (mills) and rep of palm growers; thus, we expect to achieve our commitments by 2030.

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

Our commitments are corporate.

4. Actions For Next Reporting Period

4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

Our Sustainable Palm Oil Program is planned to be a comprehensive 3-year program with the strategic alliance with Solidaridad and Nes Naturaleza.

*** Year 1, 2021: CAPACITY BUILDING**

Open convocatory to all Mills and their bases of palm growers.

Provide the same training opportunity.

Evaluate their level of commitment and the opportunity for scale in the groups to select

ACCOMPANIMENT.

100% financed.

Targets 2021:

- + 100 facilitators directly trained.

- 1,100 farmers trained through the facilitators, from 8 Mills.

*** Years 2 and 3, 2022 - 2023: ACCOMPANIMENT**

Follow-up on the implementation of action plans from suppliers, with their associations of palm growers.

Implementing good agricultural practices to increase yield.

Fresh Fruit Bunch (FFB) with NDPE standards + progressive RSPO Independent Smallholder Standard (ISS) certification.

Program aligned to RSPO methodology for certification (Eligibility -> Milestone A -> Milestone B -> Audit)

Co-financed with the beneficiaries + Leveraged funds (seeking).

We expect to achieve the following targets with at least 1 mill and its sourcing:

Targets 2021-2022 : Supply Chain implementation

Targets 2022 - 2023 : Replicable Changes in the Peruvian Palm Chain

Consumer Goods Manufacturers

1. Operational Profile

1.1 Please state your company's main activity within the palm oil supply chain.

- Food Good Manufacturer - own brand
- Food Good Manufacturer - third-party brand
- Home & Personal Care Good Manufacturer - own brand
- Home & Personal Care Good Manufacturer - third-party brand
- Ingredient Manufacturers
- Biofuels
- Other

Other

-

2. Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Consumption - is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed, to enable the RSPO to accurately calculate uptake of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please list down all operations and subsidiaries using palm oil, palm kernel oil and related products that are owned and/or managed by the member, including those under Group Membership

Certified operation:

* Alicorp S.A.A., Refinery Plant Fully-owned (100%) : Planta Refinería Oleos Lima - COPSA. We receive crude palm or palm kernel oil as raw material and process them so that they are part of the formulations of oils, butters, margarines, Cookies, cookie coating formulations, Panettones, some frozens like pre-cooked potatoes, and soaps.

Non certified operations using palm oil, palm kernel oil and related products:

PERÚ:

* Global Alimentos S.A.C. - palm butter

* Industrias Teal S.A. - Butter and derivatives from Copsa for cookies and Panettones

* Masterbread S.A. - palm butter

URUGUAY:

* Alicorp Uruguay S.R.L. - Trader without Physical Possession

* Atlantis S.A. - palm kernel oil is used in the toilet soap plant

ARGENTINA

* Alicorp Argentina S.C.A. - palm kernel oil is used in the toilet soap plant

BOLIVIA:

* Industrias del Aceite S.A. - We import from Peru palm-based butter, also for soaps based on palm; we do not re-export the products only commercialize in Bolivia

BRASIL:

* Pastificio Santa Amalia S.A. - We use palm oil in premixes for cakes and fried pastries like to fry Instant Noodles.

CHILE:

* Vitapro Chile S.A - we use a small proportion of certified palm and kernel oils and derivatives (CU-RSPO SC 816033) for salmon diets in the extrapellet process

2.1.1 In which markets does your company sell goods with palm oil and oil palm products?

Latin America

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)

2.2 Total volume of uncertified and certified palm oil, palm kernel oil and related products purchased for use in your company's own-brand and third-party brand products

Description	Tonnes
Total volume of crude palm oil (tonnes)	96289.0
Total volume of crude palm kernel oil (tonnes)	3928.0
Total volume of palm kernel expeller (tonnes)	0.0
Total volume of crude palm oil/palm kernel oil-based derivatives and fractions (tonnes)	2364.0
Total	102581.0

2.2.1 Please estimate the percentage of derivatives and fractions (reported in Question CG.2.2) derived from palm oil or from palm kernel oil. The default split for volumes is assumed to be 80% palm oil-based derivatives and 20% palm kernel oil-based derivatives.

Description	Percentage
Palm oil-based derivatives and fractions	95.0
Palm kernel oil-based derivatives and fractions	5.0

2.3 Please estimate the regional distribution of your company's uncertified and certified palm oil, palm kernel oil and related products sales (as declared in Question 2.2) in the following countries/regions. In cases where sales distribution data is not available, members may use manufacturing regions as a proxy for regional usage of certified volumes.

Countries/Regions	Percentage
Europe	0.0
North America	0.0
Malaysia	0.0
Indonesia	0.0
China	0.0
India	0.0
Latin America	100.0
Africa	0.0
Rest of World	0.0

2.4 Volume of RSPO-certified palm oil, palm kernel oil and related products purchased for use in your company's own-brand and third-party brand products in the year:

Description	Crude/Refined Palm Oil (CSPO)	Crude/Refined Palm Kernel Oil (CSPKO)	Palm Kernel Expeller (CSPKE)	Certified Derivatives and Fractions
RSPO Credits from Mill / Crusher	0.0	0.0	0.0	0.0
RSPO Credits from Independent Smallholder	0.0	0.0	0.0	0.0
Mass Balance (MB)	0.0	0.0	0.0	0.0
Segregated (SG)	0.0	0.0	0.0	0.0
Identity Preserved (IP)	0.0	0.0	0.0	0.0
Total	0.0	0.0	0.0	0.0

2.4.1 Please estimate the percentage of RSPO-certified derivatives and fractions (reported in Question CG.2.4) derived from RSPO-certified palm oil or from RSPO-certified palm kernel oil. The default split for volumes is assumed to be 80% palm oil-based derivatives and 20% palm kernel oil-based

Description	Percentage
Certified Palm oil-based derivatives and fractions	-
Certified Palm kernel oil-based derivatives and fractions	-

2.5 According to the volume information you have provided in Question 2.2 and Question 2.4, your company's certified palm oil and palm oil products uptake is:

0.00%

2.5.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake. This may include your usage of RSPO Credits to cover gaps in certified uptake, changes due to business environment, variations due to stock positions or efforts to support independent smallholders beyond volume commitments.

Doesn't apply.

3. TimeBound Plan

3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification?

2030

3.2 Which year did your company begin (or expects to begin) using RSPO-certified sustainable palm oil and palm oil products in own-brand products

2030

3.2.1 If the previous target year has not been met, please explain why.

Alicorp is committed and making progress to achieve RSPO sustainability standards, to achieve its commitment in 2030. So, in 2018 we conducted the process and obtained the Mass Balance RSPO certification for our palm oil refinery. We are also committed to promote a local sustainable palm oil value chain in Peru. Thus in 2018, as a starting point, we conducted an initial diagnosis to assess the gaps of our palm crude suppliers towards sustainability standards. In 2019 we offered and then financed consultancies with Proforest and Solidaridad as one-on-one work to our suppliers, in order to make a deep dive diagnosis that for them to acknowledge their sustainability gaps and determine suggested action plans for gaps closure.

At the beginning of 2020, we started to work with those suppliers who showed more interest and commitment, exploring the possibility to consolidate alliances to implement the action plans for gaps closure with a Program to cover most of our suppliers (mills and their sourcing). Nevertheless, the COVID-19 emergency affected all actor's capabilities to make progress towards this goal. Mainly because of the change in context that forced everyone to rethink scenarios that were not previously contemplated and that require immediate attention due to the economic impact associated with pandemic.

On the last quarter 2020, we decided to go for a 3-year program, led by Solidaridad and Nes Naturaleza. Therefore, we invited all our mill suppliers, and their rep palm growers to a session to explain the program and the conditions, which were signing an agreement to confirm their commitment to participate.

The launching event (Jan 2021), for the first-year program, has been announced with the participation of LATAM RSPO representatives: Francisco Naranjo and Diego Pierrend, and the Directors from Solidaridad and Nes Naturaleza. We accomplished the involvement of reps from mills and palm growers, for about 69% of our total volume palm product.

Also, due to changes on some client's needs, we decided to import a first certified palm product batch, during 2021.

3.3 Which year did your company begin (or expects to begin) using 100% RSPO-certified sustainable palm oil and palm oil products from any supply chain option in own-brand products.

2030

3.3.1 If the previous target year has not been met, please explain why.

Achieve RSPO certification for our palm crude suppliers represents a long-term intervention considering this productive sector involves a very large suppliers base represented by small farmers, with lack of resources to invest in gaps closure. Also, the COVID-19 emergency affected all actor's capabilities to make progress towards this goal.

At the moment, we started the Sustainable Palm Program led by our Partners Solidaridad and Nes Naturaleza with most of our suppliers (mills) and rep of palm growers; thus, we expect to achieve our commitments by 2030.

3.4 Which year did your company begin (or expects to begin) using 100% RSPO-certified sustainable palm oil and palm oil products from physical supply chain options (Identity

3.4.1 If the previous target year has not been met, please explain why.

We aim to develop a Peruvian sustainable palm oil value chain, encouraging farmers to implement and validate sustainability standards and agricultural best practices. Alicorp trusts that in time they will be able to gradually achieve gaps closure towards sustainability and eventually produce RSPO certified crude. This initiative implies a long-term time bound plan and supports the efforts of thousands of Peruvian palm farmers and their families. At the moment we are committed with this program and will look forward to encouraging farmers to produce RSPO-certified palm oil products gradually, in accordance with local implications and always that market conditions allow it; thus we expect to use 100% RSPO certified sustainable palm oil and palm oil products in our own-brand products.

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

Our commitments are corporate.

3.6 Does your company use RSPO-certified sustainable palm oil and palm oil products in products manufactured on behalf of other companies?

No

3.6.1 Does your company have a TimeBound Plan to only use RSPO-certified sustainable palm oil and palm oil products in the goods you manufacture on behalf of other companies?

No

3.6.3 Please explain why your company does not have such a TimeBound Plan

Our commitment is corporate and applies to all our operations, products manufactured on behalf of other companies are included.

We aim to develop a Peruvian sustainable palm oil value chain, encouraging farmers to implement and validate sustainability standards and agricultural best practices. Alicorp trusts that in time they will be able to gradually achieve gaps closure towards sustainability and eventually produce RSPO certified crude.

Thus, when possible, we expect to be able to manufacture products on behalf of other companies such as in our own brand products.

4. Trademark Use

4.1 Does your company use or plan to use the RSPO Trademark in own-brand products?

No

4.3 Please explain why your company does not plan to use the RSPO Trademark in own-brand products

- Challenging reputation of palm oil
- Confusion among end-consumers
- Costs of changing labels
- Difficulty of applying for RSPO Trademark
- Lack of customer demand
- Limited label space
- Low consumer awareness
- Low usage of palm oil
- Risk of supply disruption
- Others

Others

-

5. Actions for Next Reporting Period

5.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

Our Sustainable Palm Oil Program is planned to be a comprehensive 3-year program with the strategic alliance with Solidaridad and Nes Naturaleza.

* Year 1, 2021: CAPACITY BUILDING

Open convocatory to all Mills and their bases of palm growers.

Provide the same training opportunity.

Evaluate their level of commitment and the opportunity for scale in the groups to select

ACCOMPANIMENT.

100% financed.

Targets 2021:

- + 100 facilitators directly trained.

- 1,100 farmers trained through the facilitators, from 8 Mills.

* Years 2 and 3, 2022 - 2023: ACCOMPANIMENT

Follow-up on the implementation of action plans from suppliers, with their associations of palm growers.

Implementing good agricultural practices to increase yield.

Fresh Fruit Bunch (FFB) with NDPE standards + progressive RSPO Independent Smallholder Standard (ISS) certification.

Program aligned to RSPO methodology for certification (Eligibility -> Milestone A -> Milestone B -> Audit)

Co-financed with the beneficiaries + Leveraged funds (seeking).

We expect to achieve the following targets with at least 1 mill and its sourcing:

Targets 2021-2022 : Supply Chain implementation

Targets 2022 - 2023 : Replicable Changes in the Peruvian Palm Chain

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility indicators will be done through several channels, including ACOP. As the implementation of Shared Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to <https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules> or email the ACOP team at acop@rspo.org

Labour & Labour Rights

1.1 Does your company have a publicly-available policy covering Labour & Labour Rights?

Yes

1.1.1 Does the policy cover:

- No discrimination
- Wage and working conditions
- Freedom of association
- No child labour
- No harassment
- No forced or trafficked labour

Ethical Conduct & Human Rights

1.2 Does your company have a publicly-available Policy covering Ethical Conduct & Human Rights?

Yes

1.2.1 Does the policy cover:

- Recruitment
- Contractors
- Sub-Contractors & Third-Party Contractors

Land Use

1.3 Does your company have a publicly-available Policy covering Land Use?

Yes

1.3.1 Does the policy cover:

- Free Prior and Informed Consent (FPIC)
- Compensation

Occupational Health & Safety

1.4 Does your company have a publicly-available Policy covering Occupational Health & Safety?

Yes

Climate Change & Greenhouse Gas (GHG)

1.5 Does your company have a publicly-available policy covering Climate Change & Greenhouse Gas (GHG)?

No

Complaints & Grievances

1.6 Does your company have a Complaints & Grievances Mechanism?

Yes

1.6.1 Is your Complaints & Grievance mechanism in line with the principles of the RSPO's grievance mechanism, which are the elements of fairness, transparency, and impartiality?

Yes

Smallholders

1.7 Does your company support oil palm independent smallholder groups?

Yes

1.7.1 Does this support cover:

- Fair and transparent dealings with Smallholders
- Improved Smallholder livelihoods

1.7.2 How is your company supporting them?

Our Sustainable Palm Oil Program is planned to be a comprehensive 3-year program with the strategic alliance with Solidaridad and Nes Naturaleza. The Program's target is to support Smallholders Sustainable capacities and practices.

This program is 100% financed by Alicorp for the first year, and for further years will be co-financed with the mills and their suppliers; alicorp will support seeking for leverage funds.

Sustainable Palm Oil Policy

1.8 Does your company have a publicly-available Policy covering the implementation of RSPO Shared Responsibility principles?

Yes

Waste Management

1.9 Does your company have a waste management plan?

Yes

Water Management

1.10 Does your company have a water management plan?

No

Energy Use

1.11 Does your company have an energy use plan covering fossil fuels and renewable energy?

No

RSPO Services and Support

1.12 Does your company provide services and support to the RSPO, eg. participation in RSPO Working Groups and Task Forces

Yes

Shared Responsibility Resourcing

1.13 Does your company have a plan to commit resources to ensure effective implementation of RSPO Shared Responsibility principles?

Yes

Challenges and Support

1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- Awareness of RSPO in the market
- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues
- Insufficient demand for RSPO-certified palm oil
- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- No challenges faced
- Others

Others

Source text

Palm growth in Peru started as a UNODC initiative contributed with the peruvian Government as an alternative economic activity to switch from coca plantations to palm. Today, Peruvian palm growers are +7,000 small-scale farmers and their families, most of them belong to the bottom of the pyramid, they are economically dependent on the palm crop as their only way of subsistency.

1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
- Others

Others

-
