2024

3.3.1 If the previous target year has not been met, please explain why.

Globally, we still have a few markets in which we have identified a need for RSPO certified sustainable palm oil. We are seeing more of a shift from customers' expectations to source sustainable which will drive this target. Currently, roughly 80% of our global palm is CSPO through Book & Claim, Mass Balance and Segregated Supply.

3.4 Which year did your company begin (or expects to begin) using 100% RSPO-certified sustainable palm oil and palm oil products from physical supply chain options (Identity Preserved, Segregated and/or Mass Balance) in own-brand products.

2025

3.4.1 If the previous target year has not been met, please explain why.

This target is based on customer requirements. We are seeing more demand from our customers expecting the minimum of Mass Balance which will help us drive our 2025 target to achieving 100% RSPO certified volume.

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

Our biggest challenge, aside from price premiums, has been availability of supply. While mass balance is available and being purchased in North America, the infrastructure is not yet set up for true Segregated Supply. ARYZTA continues to work with customers and encourage our industry to move towards sustainable, traceable options in sourcing palm oil. We currently are not experiencing any challenges in Europe, where we currently purchase mass balance and segregated supply. If and when additional ARYZTA customers outline expectations around using CSPO, we will continue to make necessary investments and provide solutions to meet their ingredient standards in those markets which are not yet using 100% CSPO.

1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Engagement with business partners or consumers on the use of CSPO
