2. Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Sourcing is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please include details of all certified and uncertified operations using palm oil, palm kernel oil and related products, owned and/or managed by the member and/or all entities that belong to the group.

We, BÄKO Mitteldeutschland eG (headquarters in St. Egidien and second headquarters in Krostitz), are supplied by various suppliers with products that sometimes contain certified and conventional palm oil. The delivered products are resold to our customers without physical possession. Due to the fact that we are a wholesaler of more than 10.000 products (mainly baking agents, oils and fats as well as frozen end products), which almost always contain a small percentage of palm oil (conventional or certified MB/ SG), it is for us very difficult to determine the total amount of certified and non-certified palm oil. Especially since we do not always receive the necessary information (for points 2.2.; 2.3 and 2.4. and percentages) from the supplier/ manufacturer based on the secret of the recipe.

2.1.1 In which markets do you sell goods with palm oil and palm oil -related products?
