2. Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Sourcing is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please include details of all certified and uncertified operations using palm oil, palm kernel oil and related products, owned and/or managed by the member and/or all entities that belong to the group.

Our company Chemical Mate Sdn Bhd is a trading and distribution company. We buy and sell Oleochemicals and Oleochemicals Derivatives and other general chemicals, and ship or deliver the products directly from the supplier to our buyer (customer). Our company does not have a group structure.

2.1.1 In which markets do you sell goods with palm oil and palm oil -related products?

Europe, North America, China,India,Malaysia,Indonesia,Africa, Latin America, Rest of the World

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)

2.2 Volumes of uncertified and certified palm oil, palm kernel oil and related product sourced in the year

Description	Tonnes
Crude palm oil, including derivatives refined from CPO (tonnes)	2502.0
Crude palm kernel oil, including derivatives refined from CPKO (tonnes)	9339.0
Crude palm kernel expeller (tonnes)	0.0

2.4 According to the volume information you have provided in Question PT.2.2 and Question PT.2.3, your company's certified palm oil, palm kernel oil and related products uptake is:

2.34%

2.4.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake calculated in PT.2.4. This may include changes due to business environment, evolving nature of operations or variations due to stock positions

Our volumes of RSPO MB certified products sales reduced due to our supplier plant disruptions, resulting in loss of some existing business during the year. This reduction in volume from plant (supplier) disruptions also reflects in our total sales volume for the year.

On the other hand, we have also managed to commercialize some new business, on trial basis for RSPO MB grade downstream surfactant as well, which shows some potential for the long term.

In any case, the basic oleochemicals business environment is highly competitive, therefore competition to supply RSPO MB grade material is equally competitive among us and the other major suppliers / manufacturers.

2.5 What is the estimated percentage of Certified Sustainable Palm Oil in the palm oil, palm kernel oil and related products sold, traded or processed by your company in the following regions:

Countries/Regions	Percentage
Europe	28.0
North America	0.0
Malaysia	0.0
Indonesia	0.0
China	0.0
India	0.0
Latin America	35.0
Africa	0.0
Rest of World	37.0

4. Actions For Next Reporting Period

4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

We remain committed to promote RSPO MB Grade and Sustainable Palm Oil products to our customers. Our priority remains working closely with suppliers (manufacturers) who have RSPO certification so that we are able to provide certified products to our customers.

At this juncture we are continuously working towards supplying more downstream surfactants and oleochemical derivatives which are RSPO certified, in addition to RSPO certified basic oleochemicals such as fatty acid and fatty alcohol.

Shared Responsibility

Yes

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility indicators will be done through several channels, including ACOP. As the implementation of Shared Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules or email the ACOP team at acop@rspo.org
