2. Palm Oil and Certified Sustainable Palm Oil Consumption

*Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Consumption - is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed, to enable the RSPO to accurately calculate uptake of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.*

2.1 Please list down all operations and subsidiaries using palm oil, palm kernel oil and related products that are owned and/or managed by the member, including those under Group Membership

Applies Globally. We use palm oil and palm derivatives in our facilities in the following Divisions: - North America Division - Latin America Division - Asia Division - Europe, Middle East and Africa Division

2.1.1 In which markets does your company sell goods with palm oil and oil palm products?

Europe, North America, China, India, Malaysia, Indonesia, Africa, Latin America, Rest of the World

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)
2.2 Total volume of uncertified and certified palm oil, palm kernel oil and related products purchased for use in your company's own-brand and third-party brand products

### 2.5 According to the volume information you have provided in Question 2.2 and Question 2.4, your company's certified palm oil and palm oil products uptake is:

81.92%
2.5.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake. This may include your usage of RSPO Credits to cover gaps in certified uptake, changes due to business environment, variations due to stock positions or efforts to support independent smallholders beyond volume commitments.

In 2018 we reached 100% coverage for Tier 1 materials (Palm Oil and Palm Kernel Oil) using Mass Balance RSPO. We continue working with our palm derivatives suppliers to increase the usage of RSPO physically certified materials. As part of our global responsible sourcing strategy for palm we combine this effort with the transformation projects and opportunities identified with our direct suppliers, supporting RSPO certification work. We continue to use RSPO certificates to cover the gap between physically certified oils purchases in our total purchases. We have a 2025 goal for all tier 1 and derivative volumes to be 100% physically certified palm oil.
2.6 Please estimate the regional distribution of your company's RSPO certified palm oil and palm oil-products usage (as declared in Question CG.2.3) in the following countries/regions:

3. TimeBound Plan

3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification?

2025

3.2 Which year did your company begin (or expects to begin) using RSPO-certified sustainable palm oil and palm oil products in own-brand products

2013

3.2.1 If the previous target year has not been met, please explain why.

We are currently working with SGS certification body to assess what is needed to certify our facilities. Based on the outcome of this assessment we will develop the execution plan.

3.3 Which year did your company begin (or expects to begin) using 100% RSPO-certified sustainable palm oil and palm oil products from any supply chain option in own-brand products.

2022

3.3.1 If the previous target year has not been met, please explain why.

We continue to work toward 100% certified tier 1 and derivatives increasing coverage of derivatives through a combination of physical certification and RSPO credits. We have a goal for 100% coverage by any supply chain option by 2022.

3.4 Which year did your company begin (or expects to begin) using 100% RSPO-certified sustainable palm oil and palm oil products from physical supply chain options (Identity Preserved, Segregated and/or Mass Balance) in own-brand products.

2025

3.4.1 If the previous target year has not been met, please explain why.

We continue to work toward 100% physically certified tier 1 and derivatives and plan to reach this goal by 2025.

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

Applies Globally
4. Trademark Use

4.1 Does your company use or plan to use the RSPO Trademark in own-brand products?

No

4.3 Please explain why your company does not plan to use the RSPO Trademark in own-brand products

☐ Challenging reputation of palm oil
☐ Confusion among end-consumers
☐ Costs of changing labels
☐ Difficulty of applying for RSPO Trademark
☐ Lack of customer demand
☐ Limited label space
☐ Low consumer awareness
☐ Low usage of palm oil
☐ Risk of supply disruption
☐ Others

Others

RSPO requires to have the production facilities certified. This requires extensive preparation. In addition, there is limited availability of certified palm derivatives in some specific regions.
5. Actions for Next Reporting Period

5.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

We are focusing on the following key important actions to support our palm oil policy commitments and requirements. We will continue to meet with our suppliers in different regions to understand their capabilities to supply certified palm derivatives. We will continue working closely with our direct suppliers for palm and palm kernel oil to maintain our goal of sourcing 100% certified sustainable palm oil and PKO. We are investigating the potential to move some of our tier 1 palm oil and PKO to a certified segregated supply chain model. We will continue working with our regional palm oil sourcing teams, qualifying new suppliers, specifically in the regions where we usually have some issues finding physically certified oils.

In partnership with our key strategic suppliers we will continue supporting smallholders group to achieve RSPO certification. This action is part of our ongoing transformation initiatives to continue driving changes on the ground. As a member of the Consumer Goods Forum - Forest Positive Coalition we continue to work with the industry, our peers, suppliers and producers and NGO and civil society to transform the palm oil industry and drive sustainable production of palm oil.
Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility indicators will be done through several channels, including ACOP. As the implementation of Shared Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules or email the ACOP team at acop@rspo.org

Colgate's support advances the following two goals in this important palm oil sourcing region: 1) Create a safe environment and working conditions for farmers, families and workers, and 2) Develop youth interest and capacity to adopt stable and sustainable farming businesses. Rurality facilitated the provision of basic personal protective equipment (PPE) such as helmets and boots to farmers, groups, expanding across 3 villages and 10 farmers, groups. Rurality also delivered training on Best Management Practices, including Occupational Health and Safety, to local farmers. With Colgate's support, Rurality launched an agricultural education program in a junior high school, including a 0.5-hectare demonstration lab. Rurality partnered with Soedirman University to create an agricultural education curriculum for youth, and trained 16 junior high school teachers to deliver the curriculum. By the end of 2019, a 57 intra-curricular sessions had been held a total of 167 teachers and student participants. Colgate continues to support multiple other transformation projects in Indonesia and Malaysia focused on improving livelihoods of smallholders and implementation of good forest management practices.
