Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Sourcing is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please include details of all certified and uncertified operations using palm oil, palm kernel oil and related products, owned and/or managed by the member and/or all entities that belong to the group.

2.4 According to the volume information you have provided in Question PT.2.2 and Question PT.2.3, your company's certified palm oil, palm kernel oil and related products uptake is:

100.00%

2.4.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake calculated in PT.2.4. This may include changes due to business environment, evolving nature of operations or variations due to stock positions

The situation of the company has changed. The Damel products started with at RSPO in 2018 are currently not manufactured.

Since 2019, other products are being manufactured with sustainable palm oil.

These imply a lower manufacturing volume and therefore the amount of sustainable palm oil used in their manufacture has dropped considerably.

At ACOP 2019, a volume of 0.145 tonnes was reported.

As you can see, the consumption of sustainable palm oil is much lower than that initially proposed in 2018.
