3. TimeBound Plan

3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification?

2015

3.2 Which year did your company begin (or expects to begin) using RSPO-certified sustainable palm oil and palm oil products in own-brand products

2030

3.2.1 If the previous target year has not been met, please explain why.

There is not a specific time target for the use of RSPO in own brand products, since the latter are mostly traded in Greece, and the Greek market is not informed or/ and mature yet, to the extent of claiming from producers the use of RSPO certified raw materials. Provided the higher cost of the certified products, there is no specific decision yet for above addressed issue.

3.3 Which year did your company begin (or expects to begin) using 100% RSPO-certified sustainable palm oil and palm oil products from any supply chain option in own-brand products.

2030

3.3.1 If the previous target year has not been met, please explain why.

Similar to 3.2.1 reply, there is no specific time target for 100% use of RSPO raw materials in own brand products.

3.4 Which year did your company begin (or expects to begin) using 100% RSPO-certified sustainable palm oil and palm oil products from physical supply chain options (Identity Preserved, Segregated and/or Mass Balance) in own-brand products.

-

3.4.1 If the previous target year has not been met, please explain why.

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

No

3.6.3 Please explain why your company does not have such a TimeBound Plan

Because when we undertake the responsibility to produce for our customers, with their private label on the finished goods, we are obliged to meet their Certification requirements. If they ask for RSPO palm oil based raw materials in the recipes, and we can source the any specific material as certified, we do it. But there is no Timebound plan in place.
