ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1.1 In which markets does your company sell goods with palm oil and oil palm products?

Europe, Rest of the World

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)

2.2 Total volume of uncertified and certified palm oil, palm kernel oil and related products purchased for use in your company's own-brand and third-party brand products

Description	Tonnes
Total volume of crude palm oil (tonnes)	1251.33
Total volume of crude palm kernel oil (tonnes)	100.19
Total volume of palm kernel expeller (tonnes)	0.0
Total volume of crude palm oil/palm kernel oil-based derivatives and fractions (tonnes)	107.21
Total	1459.0

2.2.1 Please estimate the percentage of derivatives and fractions (reported in Question CG.2.2) derived from palm oil or from palm kernel oil. The default split for volumes is assumed to be 80% palm oil-based derivatives and 20% palm kernel oil-based derivatives.

Description	Percentage
Palm oil-based derivatives and fractions	80.0
Palm kernel oil-based derivatives and fractions	20.0

2.3 Please estimate the regional distribution of your company's uncertified and certified palm oil, palm kernel oil and related products sales (as declared in Question 2.2) in the following countries/regions. In cases where sales distribution data is not available, members may use manufacturing regions as a proxy for regional usage of certified volumes.

Countries/Regions	Percentage
Europe	97.0
North America	0.0
Malaysia	0.0
Indonesia	0.0
China	0.0
India	0.0
Latin America	0.0
Africa	0.0
Rest of World	3.0

2.4 Volume of RSPO-certified palm oil, palm kernel oil and related products purchased for use in your company's own-brand and third-party brand products in the year:

Description	Crude/Refined Palm Oil (CSPO)	Crude/Refined Palm Kernel Oil (CSPKO)	Palm Kernel Expeller (CSPKE)	Certified Derivatives and Fractions
RSPO Credits from Mill / Crusher	0.0	0.0	0.0	0.0
RSPO Credits from Independent Smallholder	0.0	0.0	0.0	0.0
Mass Balance (MB)	179.88	43.49	0.0	48.15
Segregated (SG)	1053.36	56.7	0.0	58.05
Identity Preserved (IP)	4.09	0.0	0.0	1.02
Total	1237.33	100.19	0.0	107.22

2.4.1 Please estimate the percentage of RSPO-certified derivatives and fractions (reported in Question CG.2.4) derived from RSPO-certified palm oil or from RSPO-certified palm kernel oil. The default split for volumes is assumed to be 80% palm oil-based derivatives and 20% palm kernel oil-based

Description	Percentage
Certified Palm oil-based derivatives and fractions	80.0
Certified Palm kernel oil-based derivatives and fractions	20.0

2.5 According to the volume information you have provided in Question 2.2 and Question 2.4, your company's certified palm oil and palm oil products uptake is:

99.04%

2.5.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake. This may include your usage of RSPO Credits to cover gaps in certified uptake, changes due to business environment, variations due to stock positions or efforts to support independent smallholders beyond volume commitments.

As confirmed in another question, we actively source materials that are RSPO certified however we manufacture some license branded products and there are some materials that our licensed brand partners manufacture that we are required to use in the licensed branded products that we manufacture for them. We have limited information regarding these materials and have no confirmation as to whether they are from a sustainable source and as such we do not count them as being sustainable. Therefore the 1% usage that is unaccountable is the volume of material that we use that we cannot confirm as supplied by our licensed brands to go into their licensed brand finished product.

2.6 Please estimate the regional distribution of your company's RSPO certified palm oil and palm oil-products usage (as declared in Question CG.2.3) in the following countries/regions:

Countries/Regions	Percentage
Europe	97.0
North America	0.0
Malaysia	0.0
Indonesia	0.0
China	0.0
India	0.0
Latin America	0.0
Africa	0.0
Rest of World	3.0

We are sourcing and using 100% RSPO Certified Sustainable Palm Oil. However we manufacture some licensed brand products and our licensed brand partners supply some of their own branded materials which they require us to use within their product matrix. This is out of our control and we manufacture these product under the customers licensed brand. This equates to circa 1% of our total usage
