3. TimeBound Plan

3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification?

2018

3.2 Which year did your company begin (or expects to begin) using RSPO-certified sustainable palm oil and palm oil products in own-brand products

2016

3.2.1 If the previous target year has not been met, please explain why.

It is based on our corporate identity to select raw materials carefully, that's why we have used certified palm oil raw materials obviously. We started with RSPO book and claim ingredients changing the ingredients and formulations into RSPO MB quality.

3.3 Which year did your company begin (or expects to begin) using 100% RSPO-certified sustainable palm oil and palm oil products from any supply chain option in own-brand products.

2016

3.3.1 If the previous target year has not been met, please explain why.

We don't use palmoil or palmkerneloil anymore. In 2016 we decided the use of 100% palmoil derivatives. Therefore we started the use of RSPO MB palmoil-derivatives.

3.4 Which year did your company begin (or expects to begin) using 100% RSPO-certified sustainable palm oil and palm oil products from physical supply chain options (Identity Preserved, Segregated and/or Mass Balance) in own-brand products.

2025

3.4.1 If the previous target year has not been met, please explain why.

In 2020 we were already able to use nearly 94% certified MB palmoil/kerneloil derivatives - not all raw materials are available and/or can be used in a certified manner, therefore a target of 100% is currently not possible. We continuously adjust the formulations to achieve 100%.

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

Our cosmetics are made in Germany in the region of Hannover, being distributed worldwide with the same formulations.

3.6 Does your company use RSPO-certified sustainable palm oil and palm oil products in products manufactured on behalf of other companies?

Yes
