Affiliates

- 1. Operational Profile
 - 1.1 What are the main activities of your organisation?

The National Edible Oil Distributor's Association (NEODA) are a UK based trade association who's members include edible oil and fats refiners, processors, distributors, waste oil collectors (who also sell fresh oil).

The association's key objective is to promote the interests of its members and raise standards across the entire edible oil packing and distributive trade.

1.2 What activities has your organisation undertaken to promote sustainable palm oil, the RSPO and/or RSPO members in the reporting period?

NEODA has regular contact with the RSPO and is an active member of the UK Roundtable on sustainable palm oil. We have supported the move towards sustainable palm oil for over 11 years, with the assistance of our refiner members, and have had the RSPO present updates at our AGM.

We have been working with EFECA (Economics Climate Environment) to promote the move towards 100% segregated palm oil. We have interviewed to understand what the barriers were to do this and have then helped work towards breaking down these barriers. We have now adopted a change in our code of practice, which is voluntary at first, to support 100% segregated palm oil.

| 1.3 What percentage of your organisation's overall activities focus on palm oil? | |
|--|--|
| 20.0% | |
| 1.4 Did members of your organisation participate in RSPO working groups and/or taskforces in the reporting period? | |
| 1.5 Does your organisation have any past or on-going collaborations with public or private sector palm oil industry players to support them in their efforts to increase the production or consumption of certified sustainable palm oil (CSPO)? | |
| | |

1.6 How is your organisation's work on palm oil funded?

As we are trade association, we are funded through our members. We are fortunate to have all of the main refiners as our members, including Daabon, Bunge, ADM/Olenex, Cargill and AAK.

2. Actions for Next Reporting Period

2.1 Please outline activities that your organisation will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

We will implement the new code of practice in the coming months and are still working with EFECA, funded by the UK government, on a new communications program to address the public.

We will continue to support our members in their move towards 100% segregated targets and assist them in communicating with their customer base.
