### 3. TimeBound Plan

**3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification?**

2025

**3.2 Which year did your company begin (or expects to begin) using RSPO-certified sustainable palm oil and palm oil products in own-brand products**

2013

**3.2.1 If the previous target year has not been met, please explain why.**

-

**3.3 Which year did your company begin (or expects to begin) using 100% RSPO-certified sustainable palm oil and palm oil products from any supply chain option in own-brand products.**

2025

**3.3.1 If the previous target year has not been met, please explain why.**

-

**3.4 Which year did your company begin (or expects to begin) using 100% RSPO-certified sustainable palm oil and palm oil products from physical supply chain options (Identity Preserved, Segregated and/or Mass Balance) in own-brand products.**

2030

**3.4.1 If the previous target year has not been met, please explain why.**

We have yet to determine a time bound plan to reach 100% RSPO-certified sustainable palm oil from physical supply chain options due to the complexity of our supply chains and the extensive use of palm kernel oil in our products.

**3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why**

-

#### 4. Trademark Use

##### 4.1 Does your company use or plan to use the RSPO Trademark in own-brand products?

No

---

##### 4.3 Please explain why your company does not plan to use the RSPO Trademark in own-brand products

- Challenging reputation of palm oil
- Confusion among end-consumers
- Costs of changing labels
- Difficulty of applying for RSPO Trademark
- Lack of customer demand
- Limited label space
- Low consumer awareness
- Low usage of palm oil
- Risk of supply disruption
- Others

Others

We are reviewing the option to use the RSPO logo but have no fixed plans to do so at this time.

## 5. Actions for Next Reporting Period

### 5.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

- Through our annual reports we will continue to highlight the role of RSPO certification as part of a mix of approaches and tools to deliver against our ambitions for palm oil sustainability.
  - Through our membership of the Consumer Goods Forum Forest Positive Coalition of Action, we will continue to report on and advocate for RSPO certification.
  - As a member of the India Sustainable Palm Oil Coalition (I-SPOC), we support the transition of both the import and domestic supply and wider ambitions to move India to a fully sustainable palm oil market.
  - We are committed to gradually increase our use of RSPO-certification in our palm oil supply chains until we reach 100 % certification, we aim to do this by 2025.

## Shared Responsibility

*The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility indicators will be done through several channels, including ACOP. As the implementation of Shared Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to <https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules> or email the ACOP team at [acop@rspo.org](mailto:acop@rspo.org)*

Through Earthworm landscapes programmes in Aceh Tamiang and East Riau, Indonesia and Sabah, Malaysia we are contributing to building smallholder resilience through improved farming techniques that aim to raise yields.

These programmes will also tackle endemic social and environmental issues associated with palm production by improving smallholder access to markets by building connections between with dealers that buy fresh fruit bunches and mills in RB's supply chain in these production landscapes.

The programmes also include training designed to empower smallholders to develop diversified incomes, alongside core farming of palm oil. For example, through the rearing of livestock within palm oil plantation.

Through these programmes we aim to create measurable and quantifiable change for smallholders.

This sits alongside wider efforts to improve our understanding of environmental and social challenges in our palm oil supply chain through careful due-diligence and engagement with both our suppliers and wider stakeholders. We are determined to support efforts that address the root causes these issues.
