Whilst it appears that less than 50% of Shells palm oil footprint is RSPO certified, the remaining volume is certified according to EU RED compliant schemes (for example ISCC) for biofuels, thus meeting Shells commitment to 100% certified sustainable palm oil.

4. Actions For Next Reporting Period

4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

Shell continues to engage externally with suppliers and many key stakeholders advocating the benefits of robust multi-stakeholder round table standards. We continue to look for other opportunities to promote the standard and increase the proportion of RSPO mass balance certified material in our supply chain.

-

3.4.1 If the previous target year has not been met, please explain why.

100% RSPO certified biodiesel from physical supply chains is not currently a possibility in the global biofuels markets because:

1. EU regulation does not support the RSPO standard, only RSPO-RED, so another standard must be used - ISCC.
2. There is not availability of RSPO certified CPO or palm oil biodiesel in some markets that we are mandated to blend in - Thailand.

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

-

4. Trademark Use

4.1 Does your company use or plan to use the RSPO Trademark in own-brand products?

No

4.3 Please explain why your company does not plan to use the RSPO Trademark in own-brand products

- Challenging reputation of palm oil
- Confusion among end-consumers
- Costs of changing labels
- Difficulty of applying for RSPO Trademark
- Lack of customer demand
- Limited label space
- Low consumer awareness
- Low usage of palm oil
- Risk of supply disruption
- Others

Others

The fuels supply chain is not dedicated, and can be very long and complex. Use of the Trademark could be misleading.

5. Actions for Next Reporting Period

5.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

Shell continues to engage externally with suppliers and many key stakeholders advocating the benefits of robust multi-stakeholder round table standards. We continue to look for other opportunities to promote the standard and increase the proportion of RSPO mass balance certified material in our supply chain.
