We are founding members of the Palm Oil Transparency Coalition, a pre-competitive group of palm oil buyers who together assess the sustainability performance of palm oil importers and traders. In 2021 we will be sharing the results of this assessment with key own-brand suppliers to help them make more sustainable commercial decisions. We will also be publishing the list of traders in our supply chain.

In 2020, the CGF launched the Forest Positive Coalition of Action, comprised of 18 member companies committed to moving efficiently and quickly toward a forest positive future. With a collective market value of USD 1.8 trillion (GBP 1.3 trillion), these member companies are in a leading position to leverage collective action and accelerate systemic efforts to remove deforestation, forest degradation and conversion from key commodity supply chains. In 2020, the focus was on developing and committing to the Coalition's Charter and driving stakeholder engagement through Commodity Working Groups. The Group also released a Version 1.1 Palm Oil Roadmap of the CGF Forest Positive Coalition of Action. Our aim in participating in the implementation of these roadmaps is to drive collaborative efforts to accelerate the removal of commodity-driven deforestation and human rights abuses from individual supply chains and drive transformational change in key commodity landscapes.
