Hasegawa belongs to the supply chain of BtoB business. The recognition of RSPO certified oil in Japan is still low, and the RSPO certification mark has not reached the point where it affects consumer behavior. It is difficult to get approval for cost increase by using certified oil without the request from the customer. Therefore, we have not yet used certified oil.

However, from now on, we would like to propose the merits of using RSPO certified oil to our customers and gradually increase the amount used.
