2. Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Consumption - is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed, to enable the RSPO to accurately calculate uptake of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please list down all operations and subsidiaries using palm oil, palm kernel oil and related products that are owned and/or managed by the member, including those under Group Membership

Tesco Plc includes retail operations in the United Kingdom, Republic of Ireland, Central Europe (Czech Republic, Hungary, Slovakia) and also wholesale operations in the UK.

2.1.1 In which markets does your company sell goods with palm oil and oil palm products?

Europe

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)

2.2 Total volume of uncertified and certified palm oil, palm kernel oil and related products purchased for use in your company's own-brand and third-party brand products

Description	Tonnes
Total volume of crude palm oil (tonnes)	24787.0
Total volume of crude palm kernel oil (tonnes)	3647.0
Total volume of palm kernel expeller (tonnes)	232.0
Total volume of crude palm oil/palm kernel oil-based derivatives and fractions (tonnes)	2824.0
Total	31490

2.2.1 Please estimate the percentage of derivatives and fractions (reported in Question RT.2.2) derived from palm oil or from palm kernel oil. The default split for volumes is assumed to be 80% palm oil-based derivatives and 20% palm kernel oil-based derivatives.

Description	Percentage
Palm oil-based derivatives and fractions	80.0
Palm kernel oil-based derivatives and fractions	20.0

2.3 Please estimate the regional distribution of your company's uncertified and certified palm oil, palm kernel oil and related products sales (as declared in Question 2.2) in the following countries/regions. In cases where sales distribution data is not available, members may use manufacturing regions as a proxy for regional usage of certified volumes.

Countries/Regions	Percentage
Europe	100.0
North America	0.0
Malaysia	0.0
Indonesia	0.0
China	0.0
India	0.0
Latin America	0.0
Africa	0.0
Rest of World	0.0

2.4 Total volume of RSPO-certified palm oil, palm kernel oil and related products purchased for use in your company's own-brand products. Third-party brand products containing palm oil should be excluded.

Description	Crude/Refined Palm Oil (CSPO)	Crude/Refined Palm Kernel Oil (CSPKO)	Palm Kernel Expeller (CSPKE)	Certified Derivatives and Fractions
RSPO Credits from Mill / Crusher	0.0	0.0	0.0	0.0
RSPO Credits from Independent Smallholder	722.0	0.0	0.0	0.0
Mass Balance (MB)	5197.0	2951.0	232.0	1775.0
Segregated (SG)	19025.0	692.0	0.0	998.0
Identity Preserved (IP)	67.0	0.0	0.0	0.0
Total	25011.0	3643.0	232.0	2773.0

2.4.1 Please estimate the percentage of RSPO-certified derivatives and fractions (reported in Question RT.2.4) derived from RSPO-certified palm oil or from RSPO-certified palm kernel oil. The default split for volumes is assumed to be 80% palm oil-based derivatives and 20% palm kernel oil-based

Description	Percentage
Certified Palm oil-based derivatives and fractions	80.0
Certified Palm kernel oil-based derivatives and fractions	20.0

2.5 According to the volume information you have provided in Question 2.2 and Question 2.4, your company's Certified Sustainable Palm Oil uptake is:

100.54%

2.5.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake. This may include your usage of RSPO Credits to cover gaps in certified uptake, changes due to business environment, variations due to stock positions or efforts to support independent smallholders beyond volume commitments.

This year we took the decision to support smallholder palm farmers by purchasing 722 Independent Smallholder Credits to cover a small uncertified volume of oil in our Central Europe business.

We covered more than our total physical volume with credits to ensure that we had covered some minor instances where our required level of evidence for certified volumes was not met

2.6 Please estimate the regional distribution of your company's RSPO certified palm oil and palm oil-products usage (as declared in Question RT.2.3) in the following countries/regions:

Countries/Regions	Percentage
Europe	100.0
North America	0.0
Malaysia	0.0
Indonesia	0.0
China	0.0
India	0.0
Latin America	0.0
Africa	0.0
Rest of World	0.0

3. TimeBound Plan

3.1 Which year did your company begin (or expects to begin) using RSPO-certified sustainable palm oil and palm oil products in own-brand products

2007

3.1.1 If the previous target year has not been met, please explain why.

Target has been met

3.2 Which year did your company begin (or expects to begin) using 100% RSPO-certified sustainable palm oil, palm kernel oil and related products from any supply chain option in own-brand products.

2020

3.2.1 If the previous target year has not been met, please explain why.

We already met our 100% RSPO certified target by 2019. For the 2020 reporting year we maintained our 100% RSPO certified oil achievement and are now working to move suppliers through a continuous improvement process: Credits > Mass Balance > Segregated. Tesco UK and Republic of Ireland, the large majority of our business, has already achieved 83% RSPO Segregated palm oil supply for example.

3.3 Which year did your company begin (or expects to begin) using 100% RSPO-certified sustainable palm oil and palm oil products from physical supply chain options (Identity Preserved, Segregated and/or Mass Balance) in own-brand products.

2021

3.3.1 If the previous target year has not been met, please explain why.

For the 2020 calendar year, 99% of Tesco UK Own-Brand Products were from a physical supply chain option. A small volume from our Central Europe Business had to be covered with credits. We are now working with that part of the business to transition the remaining small volumes covered by RSPO Credits to a physical supply chain option. We expect this to be achieved when reporting on the 2021 calendar year.

3.4 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

Our commitment and results cover all countries in which we operate.

4. Trademark Use**4.1 Does your company use or plan to use the RSPO Trademark in own-brand products?**

Yes

4.2 Please select the countries where your company uses or intends to use the Trademark

United Kingdom

4.2.1 Which year did your company begin (or expects to begin) using the RSPO Trademark

2015

5. Actions for Next Reporting Period

5.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

We will continue to ensure 100% RSPO certification for all palm oil used in our Tesco Own-Brand products. We will implement plans to move remaining volumes covered by RSPO Credits to a physical supply chain option in a feasible timeline given local market conditions. We are also leading members of the Palm Oil Transparency Coalition (POTC) which provides an annual ranking of the sustainability performance of palm oil companies to enable members of the coalition, like ourselves, to ensure that our suppliers are sourcing palm oil from companies that are making progress on their sustainability commitments. Building on POTC's work, we will continue to work through our partnership with WWF-UK to move the palm oil industry towards faster transformation with a focus on the UK importers, including greater uptake of CSPO. In 2019, we were the first retailer to publish our palm oil supply chain mapping showing the importers in our supply chain. In 2021 we will continue to provide this transparency. As part of the Consumer Goods Forum we are working to ensure that certification is complemented by continually developing supply chain management best-practices and effective forest governance approaches. Tesco is also playing a leading role in co-chairing the CGF Landscape Working Group which aims to coordinate the investment of member companies in priority palm oil production landscapes.

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility indicators will be done through several channels, including ACOP. As the implementation of Shared Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to <https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules> or email the ACOP team at acop@rspo.org

Yes

Smallholders**1.7 Does your company support oil palm independent smallholder groups?**

Yes

1.7.1 Does this support cover:

- Fair and transparent dealings with Smallholders
- Improved Smallholder livelihoods

1.7.2 How is your company supporting them?

Tesco supports smallholder palm producers in a number of ways:

1) As a retailer our key opportunity to influence change for sustainable palm oil is through engaging with processors and traders. To do this, we are leading members of the Palm Oil Transparency Coalition (POTC). As the POTC, we engage the processors and traders and assess their sustainability performance including progress on how they are supporting smallholders. We then rank each companies performance and then individually take any actions to recognize progress or engage to challenge for faster progress on critical topics including actions to support smallholders.

2) As mentioned above this year we provided direct financial incentives to independent smallholder cooperatives through purchase of credits. We will be developing our policy this year to make sure this support is integrated in our strategy.

3) Through our co-chairing of the Landscape Working Group of the Forest Positive coalition we are helping to design landscape investment models of some of the largest retailers and manufacturers, whilst ensuring that the investments made prioritize benefits to smallholders
