2. Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Consumption - is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed, to enable the RSPO to accurately calculate uptake of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please list down all operations and subsidiaries using palm oil, palm kernel oil and related products that are owned and/or managed by the member, including those under Group Membership

Reporting includes palm oil used in our brand and private label food and personal care products in the US, Canada and United Kingdom. Reporting also includes 3rd party manufactured personal care products and food products in the US and Canada.

2.1.1 In which markets does your company sell goods with palm oil and oil palm products?

Europe, North America, India, Malaysia, Indonesia, Rest of the World

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)
2.2 Total volume of uncertified and certified palm oil, palm kernel oil and related products purchased for use in your company's own-brand and third-party brand products

### 2.5 According to the volume information you have provided in Question 2.2 and Question 2.4, your company's certified palm oil and palm oil products uptake is:

100.00%
2.5.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake. This may include your usage of RSPO Credits to cover gaps in certified uptake, changes due to business environment, variations due to stock positions or efforts to support independent smallholders beyond volume commitments.

Our 2020 palm reporting captures a large increase in RSPO credits needed for Crude/Refined Palm Oil (CSPO) due to the launch of a new product line for Personal Care. This new product launch contributed to increases in production demand and procurement of non-certified palm ingredients. We are working to improve collaboration on palm oil purchases to address any proposed increases for the next year. In addition, we will continue transitioning products from Book & Claim to physical supply chain (MB/SEG/IP) to meet our target of 100% RSPO certified palm oil by 2024.
2.6 Please estimate the regional distribution of your company's RSPO certified palm oil and palm oil-products usage (as declared in Question CG.2.3) in the following countries/regions:

1. We will continue reporting data that covers 100% global operations including Hain personal care 3rd party manufactured products and the Hain Canada business. 2. We will continue to move products from Book & Claim to physical supply chain (MB/SEG/IP) 3. We will continue to promote RSPO on our Spectrum® branded products.
Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility indicators will be done through several channels, including ACOP. As the implementation of Shared Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules or email the ACOP team at acop@rspo.org
