This includes volume data on palm oil, palm kernel oil and related products consumed of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.*

**2.1 Please include details of all certified and uncertified operations using palm oil, palm kernel oil and related products, owned and/or managed by the member and/or all entities that belong to the group.**

Our PKE is procured both from vertically integrated players, which have their own plantations, mills and crushers, as well as from companies having only a crushing facility. As vertically integrated suppliers exert direct control over their plantations, we find higher levels of RSPO membership amongst them, compared to pure crushing suppliers. During 2020, market forces drove us to procure relatively more from pure crushing suppliers, which caused a reduction in our metric.

As PKE is the by-product of PKO, which is in turn a by-product of CPO, there's no proper market for certified PKE. In the absence of this market, we track RSPO membership of our suppliers as one of our criteria, next to other criteria we're putting in place.

**2.5 What is the estimated percentage of Certified Sustainable Palm Oil in the palm oil, palm kernel oil and related products sold, traded or processed by your company in the following regions:**

<b>Countries/Regions</b>	<b>Percentage</b>
Europe	0.0
North America	0.0
Malaysia	0.0
Indonesia	0.0
China	0.0
India	0.0
Latin America	0.0
Africa	0.0

### 3. TimeBound Plan

**3.1 Which year did your company achieve/obtain (or expects to achieve/obtain) the RSPO supply chain certification or RSPO trader/distributor licence?**

-

---

**3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products?**

-

---

**3.2.1 If the previous target year has not been met, please explain why.**

In 2020, we only traded in Palm Kernel Expeller. In the absence of a functioning market for certified Palm Kernel Expeller, we did not set a target. We do engage with our suppliers on sustainability criteria, which we progressed in 2020 by committing to work with our suppliers on the six sustainability criteria we set for sourcing of PKE.

---

**3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why**

-

#### 4. Actions For Next Reporting Period

##### 4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

Promote, monitor appetite at our clients, esp in New Zealand for certified PKE. When relevant we will move to have equivalent badges certified.

In 2020 we launched a new commitment on sustainable sourcing of PKE. We aim to engage with our supply chain in improving their performance across the six criteria, increase our ability to track and report performance and continue our engagement with our PKE customers. Our six criteria are:

- \* RSPO membership,
- \* NDPE policy,
- \* Traceability to the mill (which is enforced by regulation),
- \* Traceability to the plantation,
- \* Commitment to natural habitat conversion
- \* Demonstrated support of landscape conservation and restoration
- \* Reductions in greenhouse gas emissions.

The ongoing COVID situation in 2020 has restricted our ability to fully engage with our suppliers on our expanded sustainability aims. Given ongoing travel restrictions in 2021 may further impede the opportunity to engage in person, we will apply other means of communication to discuss improvement opportunities.

## Shared Responsibility

*The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility indicators will be done through several channels, including ACOP. As the implementation of Shared Responsibility reporting is still on-going and in development, the Shared Responsibility section in ACOP is not yet final and may change in future ACOP cycles. For more information on Shared Responsibility, please go to <https://rspo.org/news-and-events/news/what-are-the-new-shared-responsibility-rules> or email the ACOP team at [acop@rspo.org](mailto:acop@rspo.org)*
