5. Actions for Next Reporting Period

5.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

In accordance with our policy, we ask our private brand suppliers to:

- Source and use palm oil in accordance with the principles and criteria of the Roundtable on Sustainable Palm Oil (segregated supply chain systems), or equivalent standards, by the end of 2025. Many food products have palm oil listed as “vegetable oil” and, in non-food products, palm oil can have over 200 alternate names. If you are unsure what ingredients are derived from palm oil, please see the list below.
- Maintain (and make available upon request to Walmart) comprehensive records about the volume of palm oil and verification of sustainable palm oil used in Walmart private brand products on an annual basis, as well as disclose the origin (geographic region, country, state/province, plantation, and trader) through public monitoring and geospatial transparency platforms.
- Maintain comprehensive records and reports about the volume of palm oil and verification of deforestation and conversion-free palm oil sold to Walmart, as well as the origin. Annually demonstrate deforestation and conversion-free palm sourcing to the plantation of origin through traceability reports or verifiable monitoring tools.

We ask our National Brand suppliers to source RSPO Mass Balance certified palm oil in 100% of Walmart National Brand products by 2025

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations.
