## NGOs

### 1. Operational Profile

#### 1.1 What are the main activities of your organisation?

Fauna & Flora International (FFI) is the world's longest established international conservation organisation. FFI works to conserve threatened species and ecosystems worldwide, working with local stakeholders to find solutions that are sustainable, based on sound science and take into account human needs. Our approaches include working with the communities closest to nature, strategic corporate engagement and partnerships, and working with governments, to inform policy and increase capacity for sustainable natural resource use and forest protection, environmental markets, and threatened species and habitat protection programmes.

#### 1.2 What activities has your organisation undertaken to publicise programmes to support the RSPO, RSPO certification, the uptake of RSPO-certified sustainable palm oil and oil palm products, or to support good standing RSPO members during the reporting period?

In Indonesia we continued to engage with several oil palm growers to facilitate the process of compensation under RSPO compensation mechanism. The compensation mechanism offered by FFI is linking the compensation fund to village forest through Payment for Ecosystem Services (PES). FFI portfolios are ready for the payment phase under Plan Vivo scheme and suitable and fit under RSPO compensation criteria. In 2021, we supported more companies to develop a compensation project. FFI Liberia supported the development of the National Oil Palm strategy for Liberia and supported the process for its validation. In Uganda we engaged with Proforest on scoping for HCV and HCSA assessments for oil palm expansion project in Masaka in Uganda. Attended meetings and workshops in October 2021. Our UK team had discussions with an MP for Jersey to advocate to include RSPO in proposition for Jersey to limit palm oil. The Proposition had instead focused on boycotting palm oil in Jersey entirely. The proposition was amended to include reference to RSPO certified palm oil, and passed on 26th November 2021. The UK team also provided input to public consultation for "HCSA Requirements for the RSPO" in December 2021.

FFI UK will engage in the global P&C revision as an ENGO alternate member.

## Shared Responsibility

*The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on <https://rspo.org/members/shared-responsibility> or email the Shared Responsibility team at [sharedresponsibility@rspo.org](mailto:sharedresponsibility@rspo.org).*
