4. TimeBound Plan

4.1 Which year did your company achieve (or plans to achieve) its first RSPO P&C certification?

2011

4.2 Which year did your company achieve (or plans to achieve) 100% RSPO certification for all its estates and mills?

2025

4.2.1 If the previous target year for G.4.2 has not been met, please explain why

GAR has just revised its RSPO Time-Bound Plan ("TBP") 2022-2025, in response to a number of challenges that have hindered GAR from meeting its RSPO certification targets, including RaCP and land title (HGU), which are still on working progress. This TBP modification is also required to account for GAR's new acquisitions/subsidiaries, as well as a new supply base - scheme smallholders from our Peremajaan Sawit Rakyat (PSR) Program.

4.3 Which year did your company achieve (or plans to achieve) 100% RSPO certification of scheme smallholders?

2025

4.3.1 If the previous target year for G.4.3 has not been met, please explain why

Scheme smallholders are now included in GAR's new certification timeline.

4.4 Which year did your company achieve (or plans to achieve) 100% RSPO certification for all FFB, regardless of source?

2025

4.4.1 If the previous target year for G.4.4 has not been met, please explain why

GAR continues to engage with key stakeholders to complete this schedule. To achieve the goal, the corporation considers that the starting target is set under conservative conditions. The current scenario, however, has changed the original strategy due to the pandemic. As a result, GAR will continue to make necessary adjustments in order to meet the deadline.
5. Concession Map

5.1 The RSPO General Assembly Resolution 6G (2013) calls for all members with Grower operations to submit maps of their concessions through ACOP. Has your company submitted concession maps to the RSPO in previous ACOP cycles?

Yes

5.2 Has your company acquired any new concession sites or have any concession sites changed ownership since the previous ACOP map submission?

No
6. GHG Footprint

6.1 What is the average GHG footprint for all certified management units by hectare (tCO2e/ha)?

12.07

6.2 What is the average GHG footprint for all certified management units per tonne of crude palm oil (tCO2e/tCPO)?

10.75

6.3 What are the key emission sources identified by your company in certified management units?

- [ ] Land use change
- [ ] Existing cultivation peatland
- [x] Palm oil mill effluent (POME)
- [x] Fertiliser application
- [ ] Others

Others

6.4 Does your company have a baseline for GHG reporting?

No

6.4.3 Please explain why your company does not have an existing baseline, and if it is planning to develop a baseline for GHG reporting?

GAR is now working on establishing a baseline for GHG reporting.
7. Support for Oil Palm Smallholders

7.1 How is your company supporting Independent Smallholder groups?

- [x] Sourcing of physical FFB
- [x] Financial support
- [ ] Operations support
- [ ] Training support
- [ ] Community development
- [ ] Not supporting Independent Smallholder groups
- [ ] Others

Others

---

7.1.1 Please provide the names and locations of the oil palm Independent Smallholder groups that you are currently supporting. This question is not mandatory, and is left to the discretion of the RSPO member to answer.

Since 2014, GAR has helped 2,300 independent farmers secure financing from state-owned banks for replanting, covering an area of around 4,600 hectares.

In addition, we run other support programmes for independent smallholders. Through the Smallholders Development Programme, GAR has provided technical assistance to independent farmers in East Kalimantan since 2013. Farmers have access to high-yielding seeds, fertiliser and herbicides, and heavy equipment rental.
8. Actions For Next Reporting Period

8.1 Outline activities that your company will undertake in the coming year to advance its certification efforts.

We hope to have certified all of our remaining mills and their supply-bases, including plasma estates, by the year 2025. This covers and considers the current acquisition of Centrino and Woodside Group that we have just registered on MyRSPO website.

8.2 Outline activities that your company will undertake in the coming year to promote the uptake CSPO along the supply chain.

Traceability and supply chain transformation We continued to progress on our key initiative to achieve full Traceability to the Plantation (TTP). As of end-2021, we had achieved 95 percent TTP for our entire palm supply chain. However, our supply chain is not static and there is always some turnover every year, making it challenging to achieve 100 percent TTP. New suppliers joining our supply chain require time to build capacity to implement TTP. We are engaging actively with these and the very few suppliers who have yet to complete their TTP and have devised action plans to support them to achieve TTP. We are also exploring ways to build a database of TTP-compliant suppliers for future sourcing.

We continued registering smallholders under the Ksatria Sawit programme which aims to accelerate TTP. This initiative reaches out to areas where many of our supplier mills buy from smallholders and traces their agents and farmers. To date, around 118,000 farmers have been registered under the programme.

GAR is committed to achieving this aim through engaging with our suppliers and consumers, as well as collaborating with other RSPO members.

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on https://rspo.org/members/shared-responsibility or email the Shared Responsibility team at sharedresponsibility@rspo.org.
