We are gradually implementing the replacement of non-RSPO certified raw materials with sustainable alternatives for the “old” formulations, while all the new products have been already formulated with RSPO-certified raw materials since 2017.

Our objective is achieving by 2025 100% RSPO certified raw materials in the new products we formulate and manufacture (then, “pure” contract manufacturing is excluded). In order to achieve this target, we are working with vendors and in some cases manufacturers asking them to get RSPO-certified. When the vendor/manufacturer is not willing to get certified, we change it.

For what concerns the RSPO certification for our products, instead, we are assessing the opportunity to get one or more manufacturing plants of the Group certified in the future, but we have not planned so far to achieve it – in the end, this choice is up to our customers (i.e. the brand owners).

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on <https://rspo.org/members/shared-responsibility> or email the Shared Responsibility team at sharedresponsibility@rspo.org.
