Nutreco has launched and communicated both internally & externally a new policy, called " 2025" Roadmap".
Nutreco has conducted an analysis to understand the risks of deforestation and conversion in our supply chain, focusing on our highest-volume plant ingredients and ingredients known to have global risks (i.e., soy and palm oil).  Based on this analysis, Nutreco has made and will reconfirm a public commitment to transition to a deforestation- and conversion-free supply chain in our sourcing of plant ingredients.  This year we will focus on creating further transparency and internal awareness and setting intermediate targets to reach our deforestation free target.

### **Shared Responsibility**

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on https://rspo.org/members/shared-responsibility or email the Shared Responsibility team at sharedresponsibility@rspo.org.
