#### 1. Operational Profile

1.1 What are the main activities of your organisation?

The Oklahoma City Zoo is dedicated to connecting people with wildlife and nature to inspire conservation action. This is accomplished through animal care, conservation, education, awareness, and scientific research. The Zoo aids in numerous local, national, and international conservation projects. The Zoo also cares for 54 endangered or threatened species, and participates in 45 Species Survival Plans administered by the Association of Zoos and Aquariums, which ensure the survival of species globally.

1.2 What activities has your organisation undertaken to publicise programmes to support the RSPO, RSPO certification, the uptake of RSPO-certified sustainable palm oil and oil palm products, or to support good standing RSPO members during the reporting period?

We promote the goals of the RSPO and the purchase of certified sustainable palm oil during public awareness events annually. Additionally, we have informational graphics located at several of our animal exhibits to teach guests about the negative effects of unsustainable palm oil production. These graphics also encourage guests to download and use the orangutan friendly palm oil shopping guide app developed by Cheyenne Mountain Zoo.

In 2021, we renewed our commitment to a joint statement in support of sustainable palm oil that was coordinated by the Chester Zoo and included 96 signatories. We were also supported a jointly produced video promoting sustainable palm oil, which was released in the UK on October 3, 2021. We also shared this video on our social media platforms in conjunction with a blog about sustainable palm oil that was featured on the Zoo's website in October 2021.

1.6 How is your organisation's work on palm oil funded?

Funding for certified sustainable palm oil messaging and salary support for staff engaged in RSPO activities comes from our general operating fund and also from our Round Up for Conservation Fund. For this program, guests are asked to round up to the nearest dollar when making purchases.

## **Shared Responsibility**

Yes

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on https://rspo.org/members/shared-responsibility or email the Shared Responsibility team at sharedresponsibility@rspo.org.

Information & Public Availability 1.1 Does your company have organisational management documents publicly-available? Yes **Ethical Conduct & Human Rights** 1.2 Does your company have a publicly-available Policy covering Ethical Conduct & Human Rights? Yes 1.2.1 Does the policy cover: **M** Recruitment Contractors ✓ Suppliers and Sub-Contractors Legal Compliance 1.3 Does your company comply with all applicable legal requirements?
