"Palma Organica (Holland) B. V. : is a European trading company, which supplies its products from organic palm oil growers in West Africa. Additionally, POH sources its organic, RSPO and fair-trade certified products from Extranatu, a production company in Ecuador. POH sources certified CPO and then processes it at subcontracted refineries in Rotterdam.

- Sierra Organic Palm Limited: Has recently completed the processes of taking over the operations of African Lion Agriculture Ltd (ALA) after they stopped operations within the chiefdoms of Imperi, Jong and Upper Banta in the Bonthe and Moyamba Districts. Currently, an external LUCA analysis was completed and submitted to RSPO for determination of any historical liabilities for this operation.

- Nedoil: NedOil was established by the Lion Heart Foundation and started operations in 2008, with a small nucleus plantation, a palm oil mill and a nursery to grow a better yielding hybrid palm. To date, Nedoil sources palm fruit from 2,492 smallholder farmers across the Tonkolili District. These farmers are EU organic certified. It should be noted that at this time, the Nedoil mill is currently not under operation, and therefore FFBS received from the smallholders in this region is being transported to Goldtree S.L. Ltd, and processed into CPO.

- NHSL: Is a new development located in Pujehun District, Sierra Leone. The leased areas have completed the New Planting Procedure and planation development has begun. The area will also host the RaCP project relevant to NHSL and Goldtree S.L.

- Goldtree S.L.: Since 2007, the company has succeeded in establishing a small plantation and rebuilding an abandoned palm oil mill that serves thousands of farming families. This has led to the revival of the oil palm industry in the province. The main business components of Goldtree S.L. include plantations, a palm oil mill, packaging plant, and smallholder operations of approximately 10,000 smallholders supplying the mill. 4,983 of these farmers achieved RSPO Milestone B certification in 2021.

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. - Reputation of RSPO in the market
- Supply issues

Others

One of the main challenges we have faced this year is in the approval process related to our RaCP plan. While this has been approved, there were long delays in receiving any communications from RSPO. The consequence of this has been that the timetable we have in our plan has been somewhat delayed, simply due to us receiving delayed feedback from RSPO.

- Communication and/or engagement to transform the negative perception of palm oil
- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Engagement with peers and clients
- Promotion of CSPO through off product claims
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
- Others

Others

We are active via our online presence sharing information that addresses the negative misconceptions of (sustainable) palm oil in the global market. Additionally, we have also used this to promote our smallholders and to demonstrate how their achieving RSPO certification has been beneficial, both to global markets and the environment, as well as to the daily lives of the smallholders themselves.
