ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

Whilst setting clear expectations for our own products is an important first step, we don't think this is sufficient. We want to work with our suppliers and the palm oil traders they source from to ensure that they are not contributing to deforestation elsewhere in their operations. We know this will be achieved progressively, but by working with other retailers and manufacturers we believe we can send a clear market signal to bring sector-wide change. We have developed a set of expectations and best practise as part of the CGF Forest Positive Coalition of Action, and have been engaging our supply chain partners on these.

Engaging in production landscapes means going beyond our own supply chain and addressing the root causes of deforestation, taking into account economic and social factors at production level. In 2021 we committed to supporting a Rainforest Alliance industry initiative that aims to improve smallholder livelihoods in Sintang, West Kalimantan, by promoting better farming practices that increase yields whilst lowering the pressure on native vegetation.

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on <https://rspo.org/members/shared-responsibility> or email the Shared Responsibility team at sharedresponsibility@rspo.org.

We are founding members of the Palm Oil Transparency Coalition, a pre-competitive group of palm oil buyers who together assess the sustainability performance of palm oil importers and traders.

Whilst setting clear expectations for our own products is an important first step, we don't think this is sufficient. In 2021 we committed to supporting a Rainforest Alliance industry initiative that aims to improve smallholder livelihoods in Sintang, West Kalimantan, by promoting better farming practices that increase yields whilst lowering the pressure on native vegetation.
