We are working to raise general awareness through our products and are trying to establish collaboration with specific influential social networks. We have become a founding member of JaSPON, an organization dedicated to promoting RSPO certification in Japan. We will continue to promote awareness in cooperation with other Japanese companies. As a member of the RSPO, we would like to further focus our efforts not only on promoting certified products, but also on activities to conserve biodiversity in the rainforest directly. We would like to expand the trust land as much as possible by increasing donations to the Borneo Conservation Trust's Green Corridor Project in Sabah, Malaysia, and hope that the local government will convert the land into a protected area.

## Shared Responsibility

*The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. For us it is especially problematic that certified PKO products are not physically available on the market. In addition, the wildly fluctuating prices of premieres make it very difficult to plan budgets for the next fiscal year, and many other companies agree that this is a major obstacle when it comes to promoting the RSPO's certified products. We need breakthrough innovations.

### 1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Communication and/or engagement to transform the negative perception of palm oil
- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Engagement with peers and clients
- Promotion of CSPO through off product claims
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
