Our production facilities convert palm kernel oil derivatives into intermediate ingredients for the production of food and/or non-food products. Our RSPO certified facilities are located in the United States (Anaheim, CA; Fieldsboro, NJ; Maywood, NJ; Millsdale, IL; Winder, GA); Ecatepec, Mexico; Manizales, Colombia; Vespasiano, Brazil; Bauan Batangas, the Philippines; Voreppe, France; Stalybridge, UK; and Harlem, the Netherlands.

3. TimeBound Plan

3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification or RSPO trader/distributor licence?

2014

3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products?

2015

3.2.1 If the previous target year has not been met, please explain why.

Stepan has purchased and supplied MB material to our customers since 2015.

3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities.

2023

3.3.1 If the previous target year has not been met, please explain why.

Our previous target for certification of 100% of our facilities handling palm material was for 2022, this year. We will not reach this goal but have planned for certification of our remaining two sites by the end of 2023. This will support sale of RSPO certified products to customers in our Latin America region.

3.4 Year expected to only source RSPO-certified palm oil and oil palm products.

2028

3.4.1 If target has not been met, please explain why.

Stepan utilizes PKO derivatives and we have seen a steady increase in customers who are looking for RSPO certified material, however achieving 100% sourcing of RSPO certified material is challenged by supply chain impacts that affect availability and pricing, as well as other influences. Stepan is fully committed to delivering the RSPO certified products that our customers are looking for, and we continue to take actions to ensure our ability to meet the market demand for certified products based on PKO derivatives.

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

Our goal does include all of Stepan facilities that handle palm based material. We have certified sites in all our regions of operation and in 2023 will certify our remaining sites that handle palm material.
