Our Sustainable Palm Oil Program is designed and executed in an strategic alliance with Solidaridad and Nes Naturaleza.

* In year 1 (2021) we focused the program on AWARENESS and CAPACITY BUILDING, through an open invitation to all Mills and their bases of palm growers to provide relevant training; evaluate their level of commitment; and assess the opportunity to scale the initiative.

* Years 2 and 3 (2022-23) are focused on ACCOMPANIMENT, in a co-financed effort with other relevant programs focused on sustainability for the Peruvian palm oil value chain. In this phase, Alicorp and its allies will accompany the action plans developed by suppliers and their palm farmers associations to increase yield and advance in NDPE and RSPO Independent Smallholder (ISH) Standards. Throughout 2023 we will continue with relevant trainings in RSPO, grounded on applicable tools; continue our technical support for the RSPO ISH implementation in Olpasa/ASPASH and Indolmasa/APROMAN; implement digital tools to provide traceability and assistance at territory and farm levels; and present a diagnosis and action plan for the effective generation renewal and gender integration in the value chain.

We have the following goals for 2023:

- 200 farmers and technical assistants actively participate in the training program.
- 60 farmers actively participate in two RSPO ISH certification groups.
- Both certification groups gain their RSPO ISH membership and one achieves the Eligibility certification.
- Start the implementation of VISIPRAST, a digital tool for traceability to plantation.

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations.
