#### 2. Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Sourcing is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please include details of all certified and uncertified operations using palm oil, palm kernel oil and related products, owned and/or managed by the member and/or all entities that belong to the group.

Avril Group is active in France and internationally in sectors as diverse as agri-foods, livestock nutrition or renewable energies and chemistry. The group uses palm oil\* in the following sectors: oleochemistry (Oleon), soap and margarine (Lesieur Cristal), biodiesel (Saipol, Expur), animal nutrition (Sanders, MiXscience).

\*including palm oil/palm kernel oil, their fractions (including olein and stearin) and their derivatives (alcohols, fatty acids, glycerin, esters, etc.).

Volumes data presented in sections PT2.2 and PT2.3 cover the following entities of Avril Group:

- Oleon NV and its subsidiaries
- The Kerfoot Group Limited

2.1.1 In which markets do	you sell goods with i	nalm oil and i	nalm oil-related i	products?

Europe â°, North America â°, China, India, Malaysia, Indonesia, Africa â°, Latin America â°, Rest of the World â°

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)

Processor and/or Trader Page 2/6

#### 2.2 Volumes of uncertified and certified palm oil, palm kernel oil and related product sourced in the year

Description	Tonnes

2.4 According to the volume information you have provided in Question PT.2.2 and Question PT.2.3, your company's certified palm oil, palm kernel oil and related products uptake is:

36.34%

2.4.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake calculated in PT.2.4. This may include changes due to business environment, evolving nature of operations or variations due to stock positions

At Oleon, there was a higher uptake of RSPO certified raw materials in 2022 due to increase in customer demand. At Kerfoot, palm oils and palm derived products volumes are very small and tend to decrease. Kerfoot only trades RSPO certified palm products.

2011

3.2.1 If the previous target year has not been met, please explain why.

The target year has been achevied. Please note that year of first supply chain certification differs depending on the subsidiary. It effectively starts in :

- 2011 for Oleon;
- 2016 for Kerfoot.
- 3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities.

2017

- 3.3.1 If the previous target year has not been met, please explain why.
- Certification of all Kerfoot facilities achieved in 2016
- Certification of all Oleon facilities achieved in 2017
- 3.4 Year expected to only source RSPO-certified palm oil and oil palm products.

2019

3.4.1 If target has not been met, please explain why.

Since 2019, Group palm oil supplies are covered by sustainability schemes. In order to move towards greater sustainability, we believe that it is necessary to draw jointly on several schemes. Therefore, Avril equipped itself since 2019 with an internal standard which includes the following requirement: 100% of palm oil supplies (including derivatives) each year must be covered by sustainability schemes, by order of priority:

- RSPO Mass Balance (MB) or RSPO Segregated (SG) certificates that comply with requirements of customers concerned;
- ISCC-EU certificates to comply with European union regulations on biofuels;
- Field projects with suppliers or local plantation operators;
- RSPO credits purchased to enable the coverage of all supplies.

The 100% coverage target has been met every year since 2019.

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

Commitment described in 3.4.1 does cover all Group subsidiaries.

### **Shared Responsibility**

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on https://rspo.org/members/shared-responsibility or email the Shared Responsibility team at sharedresponsibility@rspo.org.

Avril formalized its Sustainable Palm Policy in 2016, and reviewed it in 2020. Through it, the Group aims to ensure that only zero deforestation palm oil will be used. This policy, drawn up in the context of combined efforts with an NGO, the Earthworm Foundation (EF), applies to all the palm oil purchased by different Group subsidiaries. Moreover, Avril aims at assuring a 100% traceability back to the mills for all its palm oil purchases and contributes to transformation on the field by financially supporting on-the-ground programmes, including EF's "Areas for Priority Transformation" Programme in Indonesia. Avril has also a partnership agreement with EF where they analyse our mill list for potential risks and support us

when we receive a grievance case.
