We look forward to obtain our supply chain certification in order to offering RSPO certified products based on customer demand. We also promote the use of RSPO certified materials to our exisiting customers on latin america, whom are either sourcing conventional materials to move to RSPO certified products.

Despite the complexity, we continue to work to find ways to improve tracking and reporting at origin. We also keep working to get logistical improvements in our current market. We believe that the Roundtable on Sustainable Palm Oil (RSPO) serves as the major global sustainability standards for palm products and encourages all end-users of palm oil and palm oil products in the mature markets.

### **Shared Responsibility**

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on https://rspo.org/members/shared-responsibility or email the Shared Responsibility team at sharedresponsibility@rspo.org.
