3.13 What other activities have your company undertaken to promote RSPO-certified sustainable palm oil and oil palm products during the reporting period?

We expanded our firmwide agribusiness portfolio review through engagement with our palm oil clients involved in growing, trading and processing/refining segments to understand the total uptake of RSPO in our client portfolio and inform the development of our expanded palm oil sector standard. While in 2022 our palm oil standard only applied to growers, moving forward the standard will now apply to traders and refiners/processors in addition to growers. We will now expect clients in these segments to become a member of the RSPO if not already via a time-bound action plan to achieve 100% RSPO certification by 2025. For palm oil clients in other segments of the industry with critical biodiversity or human rights issues, we encourage these entities to join the RSPO in the few cases that they are not yet members. It is a normal part of our review and due diligence process of our palm oil and palm oil related clients to promote the adoption of RSPO certification and membership when not specifically required by our policy.

Citi will continue to enhance our approach to promote CSPO uptake with clients throughout the palm oil supply chain. We will engage our higher risk RSPO member clients and support them in better aligning their environmental and social management systems with the RSPO principles and criteria when gaps become evident during our annual and transaction based environmental and social risk review process. We will also continue to engage all potential new clients at onboarding who are not RSPO members to take steps to become RSPO certified as a condition to providing financial services. Citi will be focused on enhancing our approach to forced labor in the palm oil sector through enhanced engagements and forced labor oriented questionnaires.

## **Shared Responsibility**

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on https://rspo.org/members/shared-responsibility or email the Shared Responsibility team at sharedresponsibility@rspo.org.
