1. Operational Profile

1.1 Please state your company's main activities as a palm oil grower:

- Oil palm grower without palm oil mill
- Oil palm grower with palm oil mill
- Oil palm grower with palm oil mill and palm kernel crushing plant
- Independent palm oil mill
- Smallholder Group Manager

2. Operations and Certification Progress

Information in Section 2.0 - Operations and Certification Progress - is a mandatory declaration in your ACOP. This includes hectare data, to enable the RSPO to accurately calculate certification of individual members, sectors and RSPO members as a whole. ACOP reports without reported hectare data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Land area controlled and managed associated to palm oil

4. TimeBound Plan

4.1 Which year did your company achieve (or plans to achieve) its first RSPO P&C certification?

2024

4.2 Which year did your company achieve (or plans to achieve) 100% RSPO certification for all its estates and mills?

2024

4.2.1 If the previous target year for G.4.2 has not been met, please explain why

We planned to achieve certification in 2021. Unfortunately, we were not able to do so for one of the following basic reasons. Our LUCA process was not completed due to misunderstandings with the LUCA team, as we provided all the information and all that was left was the satellite images which we produced in the form of a report through a SATELIGENCE consultant. But this report was rejected, so we had to provide satellite images (of a certain quality) of the parcels at the time of the declaration in order to allow them to conduct the analysis and finalize our procedure. The difficulty for us to produce the images led us to discuss at length with them and they provided us with assistance to produce the satellite images. In doing so, the images were finally provided and should normally, as agreed, allow us to conduct the analysis and finalize our procedure. While waiting for the return of the LUCA team after numerous reminders, an Excel sheet was sent to us to fill in. Not knowing how to proceed, we asked for support to fill it in. While waiting, the Africa team contacted us at the beginning of the year 2022 to have the rest of the process. It is only during these exchanges that we would be informed by the RSPO Africa team that it is up to us to do the LUCA study. We protested, because this information was new to us. It had not been discussed or informed beforehand when the process began. Indeed, it had always been a question of providing the images and waiting for the return of the LUCA team, which would mark the end of the process. The response to this protest, after exchanges with the RSPO Africa team, was that DEKELOIL would have to hire a consultant to carry out the study that would be submitted to the LUCA team. This lack of understanding resulted in the process not moving forward. Fortunately, this year we have made contact with consultants who are carrying out the LUCA study and, at the same time, the HCV study. The LUCA report will be sent to the RSPO by June at the latest for approval. With these studies underway (LUCA by Bioap and HVC by HVC Africa), certification will certainly be achieved by 2024.

4.3 Which year did your company achieve (or plans to achieve) 100% RSPO certification of scheme smallholders?

2024

4.3.1 If the previous target year for G.4.3 has not been met, please explain why

La certification de toutes les sources d'alimentation de l'entreprise est étroitement liée à la certification des petits producteurs indépendants et en dépend.
des petits producteurs indépendants. Par conséquent, le respect du calendrier établi (2021 pour les P&C pour l'usine et ses plantations et 2024 pour les petits producteurs indépendants) nous permettra d'avoir toutes nos sources d'alimentation certifiées RSPO par les autorités compétentes.
nos sources de régimes alimentaires certifiées RSPO à la fin de l'année 2024. Cependant, pour les raisons mentionnées au point G.4.2.1,
en raison du manque de compréhension du processus LUCA, notre processus de certification sera retardé. Ce
Ce report entraînera non seulement le report de l'année de certification (2023) mais aussi le report de la certification (2024).
Ce report entraînera non seulement le report de l'année de certification (2023), mais aussi le report de la certification (2026) des petits producteurs de notre chaîne d'approvisionnement.

4.4 Which year did your company achieve (or plans to achieve) 100% RSPO certification for all FFB, regardless of source?

2027

4.4.1 If the previous target year for G.4.4 has not been met, please explain why

After the reasons given in G.4.2.1 and G.4.3.1, we believe that the certification of all sources of schemes will be effective in 2026

5. Concession Map

5.1 The RSPO General Assembly Resolution 6G (2013) calls for all members with Grower operations to submit maps of their concessions through ACOP. Has your company submitted concession maps to the RSPO in previous ACOP cycles?

Yes _____

5.2 Has your company acquired any new concession sites or have any concession sites changed ownership since the previous ACOP map submission?

No _____

6. GHG Footprint

6.1 What is the average GHG footprint for all certified management units by hectare (tCO₂e/ha)?

0.00

6.2 What is the average GHG footprint for all certified management units per tonne of crude palm oil (tCO₂e/tCPO)?

0.00

6.3 What are the key emission sources identified by your company in certified management units?

- Land use change
- Existing cultivation peatland
- Palm oil mill effluent (POME)
- Fertiliser application
- Others

Others

-

6.4 Does your company have a baseline for GHG reporting?

No

6.4.3 Please explain why your company does not have an existing baseline, and if it is planning to develop a baseline for GHG reporting?

Since the reason given in our 2020 report (ability to load data from the 12,000 generators that supplied us in 2020), we have yet to find a solution despite our reminders to the GHG Unit. In addition, the data for 2021 is about the same. We believe that the RSPO should be able to find a solution to this problem, because the configuration of the DEKELOIL company is a peculiarity in the world that deserves the RSPO to address its situation in order to support the progress of the certification process.

7. Support for Oil Palm Smallholders

7.1 How is your company supporting Independent Smallholder groups?

- Sourcing of physical FFB
- Financial support
- Operations support
- Training support
- Community development
- Not supporting Independent Smallholder groups
- Others

Others

- Raising awareness among producers on the benefits of RSPO certification;
 - Training of producers on good agricultural practices;
 - Health insurance for small producers.
-

7.1.1 Please provide the names and locations of the oil palm Independent Smallholder groups that you are currently supporting. This question is not mandatory, and is left to the discretion of the RSPO member to answer.

-

8. Actions For Next Reporting Period

8.1 Outline activities that your company will undertake in the coming year to advance its certification efforts.

- Gradually migrate to the turbine;
 - Use the discharge water from the methanisation effluent treatment process for irrigation of the nursery;
 - Build a biogas plant with the aim of using the gas produced for renewable energy production by reducing the use of fossil fuels;
 - Burn a certain amount of gas and reduce the use of the generator by 2% in 2020 and 2% in 2021 to approach 1% use in 2022 and 2023;
 - To popularize good management practices at the economic, social and environmental levels;
 - To seek funding for the certification support project.
-

8.2 Outline activities that your company will undertake in the coming year to promote the uptake CSPO along the supply chain.

- Raising awareness among producers on the benefits of RSPO certification;
 - Training of producers on good agricultural practices;
 - Health insurance for small producers.
-

Processors & Traders

1. Operational Profile

1.1 Please state your company's main activity within the palm oil supply chain.

- Refiner of CPO and PKO
- Palm Kernel Crusher
- Trader with Physical Possession
- Trader without Physical Possession
- Integrated Refiner-Trader-Processor
- Intermediate Products Producer
- Power, Energy and Biofuel Processor
- Animal Feed Producer
- Oleochemicals Producer

2. Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Sourcing is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please include details of all certified and uncertified operations using palm oil, palm kernel oil and related products, owned and/or managed by the member and/or all entities that belong to the group.

We have no certified operations that use palm oil and palm kernel oil.

2.1.1 In which markets do you sell goods with palm oil and palm oil-related products?

Africa â°

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)

2.2 Volumes of uncertified and certified palm oil, palm kernel oil and related product sourced in the year

Description	Tonnes
Crude palm oil, including derivatives refined from CPO (tonnes)	1823.00
Crude palm kernel oil, including derivatives refined from CPKO (tonnes)	0.00
Crude palm kernel expeller (tonnes)	0.00
Total	1823.00

2.3 Volume of RSPO-certified palm oil, palm kernel oil and related products sourced in the year (tonnes):

Description	Crude Palm Oil (CSPO) and CSPO Derivatives	Crude Palm Kernel Oil (CSPKO) and CSPKO Derivatives	Palm Kernel Expeller (CSPKE)

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on <https://rspo.org/members/shared-responsibility> or email the Shared Responsibility team at sharedresponsibility@rspo.org.

Information & Public Availability

1.1 Does your organisation have organisational management documents publicly-available?

Yes

Climate Change & Greenhouse Gas (GHG)

1.13 Does your organisation have a publicly-available policy covering Climate Change & Greenhouse Gas (GHG) including identification and assessment of GHG emissions and implementation of a plan to reduce or minimise them?

No

Claims and labels

1.15 Does your organisation promote the use of off-product RSPO claims and labels?

Yes _____

Challenges and Support

1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- Awareness of RSPO in the market
- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues
- Insufficient demand for RSPO-certified palm oil
- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- No challenges faced
- Others

Others

Since 2017 our ACOP reports have mentioned the same issues and challenges faced without the RSPO taking this information into account. We are very embarrassed by this situation and call on the RSPO to address these issues so that the goal of making sustainable palm oil the standard becomes a reality for DEKELOIL, which has been a member of the RSPO since 2008. Addressing our challenges will enable us to make significant progress towards certification to the RSPO standard. We propose a mission of the RSPO on our installations in order to better understand the problems that we meet because our configuration is unique and the various solutions brought by the RSPO to facilitate the implementation of the requirements of the standard do not touch yet the problems which we raise each time in report. We could also, at your convenience, present all these difficulties to you so that a solution can be found this year and we can avoid reporting the same problems without being listened to.

1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Communication and/or engagement to transform the negative perception of palm oil
- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Engagement with peers and clients
- Promotion of CSPO through off product claims
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
- Others

Others

- We funded study tours for cooperatives;
 - We offered our site for testing RSPO certified auditors;
 - We have taken out health insurance for our small-scale producers;
 - We have set up a planting and fertilizer scheme for our small producers;
 - We are hosting and implementing a motorized boom project funded by the Interprofessional Fund for Agricultural Research and Advice (FIRCA)
