We have a formal policy stating we will only use RSPO certified palm oil or derivatives in our own brand products. This is supported by a dedicated Responsible & Ethical Sourcing team working alongside our product developers and suppliers to ensure compliance, as well as promoting this work in our external comms (e.g. customer queries, website and annual sustainability reporting).

Any new suppliers, or suppliers of new or amended products will be questioned about any potential ingredients which contain palm oil or derivatives. Any palm oil in use must be from RSPO certified sources, physical sourcing preferred (MB, Identity Preserved or Segregated). We carry out regular audits on our palm oil containing products to ensure the data, particularly certifications, remains up to date.

Shared Responsibility

No

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on https://rspo.org/members/shared-responsibility or email the Shared Responsibility team at sharedresponsibility@rspo.org.
