2013

---

#### 3.2 Which year did your company begin (or expects to begin) using RSPO-certified sustainable palm oil and palm oil products in own-brand products

2013

-

---

#### 3.3 Which year did your company begin (or expects to begin) using only RSPO-certified sustainable palm oil and palm oil products from any supply chain option in own-brand products.

2017

---

##### 3.3.1 If the previous target year has not been met, please explain why.

We have long only used RSPO SG certified palm oil in the ingredients we process.  
Some processing aids are still RSPO MB.  
And there are some suppliers who use RSPO Palm but are not certified themselves.  
This is because some manufacturers/suppliers would rather go in the direction of being palm-free because of the reputation that palm fats still have despite sustainable certification.  
And if they no longer process raw materials containing palm (or only very small amounts), they want to do without the certification and the associated effort.

#### 3.4 Which year did your company begin (or expects to begin) using only RSPO-certified sustainable palm oil and palm oil products from physical supply chain options (Identity Preserved, Segregated and/or Mass Balance) in own-brand products.
