Switzerland

2.0 Does your company or organisation produce, process, consume or sell any palm oil or any products containing derivatives of palm oil?

No

2.2 Please select all the sectors that best describe the business activities of your company or organisation, including your primary RSPO membership sector. You may select multiple sectors and will be required to complete the ACOP form for the relevant sectors

- I am a bank or financial institution that finances or supports companies or organisations that produce or manufacture palm oil, palm kernel oil or related products
- I am a conservation and environmental NGO supporting the sustainable development of the palm oil industry
- I am a social and human development NGO supporting the sustainable development of the palm oil industry
- I am an Affiliate member of the RSPO, indirectly involved in the palm oil industry

Affiliates

1. Operational Profile

1.1 What are the main activities of your organisation?

Koltiva is a leading agritech start-up that focuses on enabling inclusive, climate-smart, and traceable global supply chains backed by our human-centered technology with boots-on-the-ground professional service. We provide end-to-end solutions for all supply chain actors across commodities, including palm oil. Through KoltiTrace MIS apps, we provide traceability from seed to table.

As part of our commitment to sustainability, we offer extension services known as KoltiSkills. These services utilize our boots-on-the-ground approach to support companies in implementing sustainable sourcing practices within global value chains. Our activities include supply chain mapping and verification, training and coaching, business support, and certification preparation for smallholder farmers to achieve RSPO and ISPO standards. Through these efforts, we promote responsible practices and contribute to a more sustainable future.

1.2 What activities has your organisation undertaken to promote sustainable palm oil, the RSPO and/or RSPO members in the reporting period?

Koltiva supports PT SMART Tbk (GAR) in implementing its sustainable sourcing efforts. Within 2022, we have implemented two programs, Sawit Terampil and Ksatria.

Since 2019, we have implemented the Ksatria program. The program supports GAR in achieving its Traceability to Plantation targets. In 2022, we mapped over 24,000 farmers within 40 independent palm oil mills supply chains.

The Sawit Terampil program goes beyond traceability and provides next-to-supply chain mapping, training and coaching to smallholder farmers to improve their GAP practices. Within the program, selected farmers will be supported to achieve RSPO certification. By the end of December 2022, we have mapped almost 5,500 smallholder farmers and provided 6,000 training and coaching sessions to 4,500 farmers within 9 palm oil mills supply chains. In our efforts to prepare smallholders to be RSPO certified, we have supported 3 farmer groups to be RSPO certified in 2023.

Koltiva also supports 8 independent mills with Koltiva's KoltiTrace platform to ensure their supply chain is include, climate-smart, and traceable.

1.3 What percentage of your organisation's overall activities focus on palm oil?

6.0%

1.4 Did members of your organisation participate in RSPO working groups and/or taskforces in the reporting period?

No

1.5 Does your organisation have any past or on-going collaborations with public or private sector palm oil industry players to support them in their efforts to increase the production or consumption of certified sustainable palm oil (CSPO)?

Yes

1.6 How is your organisation's work on palm oil funded?

Koltiva's work is funded by integrated plantation companies, consumer goods companies, independent palm mills, and NGOs.

2. Actions for Next Reporting Period

2.1 Please outline activities that your organisation will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

In 2023, Koltiva will continue to scale up the support for independent palm oil smallholders to align with RSPO standards. By the end of 2023, we plan to have 1,000 smallholder farmers achieve RSPO certification. In addition, we will continue to support our clients to achieve 100% traceability to the plantation.

Challenges and Support

1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- Awareness of RSPO in the market
- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues
- Insufficient demand for RSPO-certified palm oil
- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- No challenges faced
- Others

Others

-

1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Communication and/or engagement to transform the negative perception of palm oil
- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Engagement with peers and clients
- Promotion of CSPO through off product claims
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
- Others
