

Particulars

About Your Organisation

1.1 Member Name

PERRIGO COMPANY PUBLIC LIMITED COMPANY

1.2 Membership Number

4-1006-18-000-00

1.3 Membership Sector

Consumer Goods Manufacturers

1.4 Membership Category

Ordinary

1.5 Country

Ireland

2.0 Does your company or organisation produce, process, consume or sell any palm oil or any products containing derivatives of palm oil?

Yes

2.1 Please select all description(s) that describe the palm oil-related activities of your company or organisation. Multiple selections are allowed, and not limited to the primary sector of the member's RSPO membership. You will be required to complete the relevant ACOP section based on your selection(s).

- I own and operate oil palm estate(s) and/or palm oil mill(s)
- I represent a palm oil Independent Smallholder farmer Group
- I own and operate independent palm oil mills
- I own and operate independent palm kernel crushing plants - Processors and/or Traders
- I trade or broker palm oil, palm kernel oil or related products - Processors and/or Traders
- I am a refiner of palm oil or palm kernel oil - Processors and/or Traders
- I am a processor of intermediate (B2B) palm oil, palm kernel oil or related fractions/derivatives - Processors and/or Traders
- I am a B2B distributor or wholesaler of palm oil, palm kernel oil or related products - Processors and/or Traders
- I manufacture final consumer (B2C) products containing palm oil, palm kernel oil or related products. This includes products manufactured by 3rd party contractors - Consumer Goods Manufacturers
- I retail final consumer (B2C) products containing palm oil, palm kernel oil or related products - Retailers
- I operate food retail outlets that use palm oil, palm kernel oil or related products - Retailers
- I am a conservation and environmental NGO supporting the sustainable development of the palm oil industry
- I am a social and human development NGO supporting the sustainable development of the palm oil industry

Consumer Goods Manufacturers

1. Operational Profile

1.1 Please state your company's main activity within the palm oil supply chain.

- Food Good Manufacturer - own brand
- Food Good Manufacturer - third-party brand
- Home & Personal Care Good Manufacturer - own brand
- Home & Personal Care Good Manufacturer - third-party brand
- Ingredient Manufacturers
- Biofuels
- Other

Other

-

2. Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Consumption - is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed, to enable the RSPO to accurately calculate uptake of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please list down all operations and subsidiaries using palm oil, palm kernel oil and related products that are owned and/or managed by the member, including those under Group Membership

Direct/Primary Palm Usage:

Perrigo - Consumer Self-Care Americas (CSCA) - Nutrition Division (Infant Formula);

Owned plants located in Georgia, Vermont and Covington, Ohio are supplied Palm Olein, which is used in the manufacturing of infant formula. Both plants are physically certified.

Secondary/Derivatives:

CSCA and Consumer Self-Care International (CSCI), used in a multitude of products, predominantly over the counter pharmaceuticals (OTC) and some cosmetic products in the US and Europe.

Owned plants manufacturing products containing derivatives located in US: Michigan, New York, Vermont, Ohio as well as UK: Braunton.

Perrigo maintains 12-13 global manufacturing plants. We continue to actively strive to capture global usage amongst all subsidiary and externally manufactured products, primarily in our international subsidiaries. While unidentified palm derivative use may still occur, it is likely minor in quantity.

2.1.1 In which markets does your company sell goods with palm oil and oil palm products?

Europe ^°, North America ^°

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)

2.2 Total volume of uncertified and certified palm oil, palm kernel oil and related products purchased for use in your company's own-brand and third-party brand products

Description	Tonnes
Total volume of crude palm oil (tonnes)	1116.72
Total volume of crude palm kernel oil (tonnes)	0.00
Total volume of palm kernel expeller (tonnes)	0.00
Total volume of crude palm oil/palm kernel oil-based derivatives and fractions (tonnes)	390.00
Total	1506.72

2.2.1 Please estimate the percentage of derivatives and fractions (reported in Question CG.2.2) derived from palm oil or from palm kernel oil. The default split for volumes is assumed to be 80% palm oil-based derivatives and 20% palm kernel oil-based derivatives.

Description	Percentage
Palm oil-based derivatives and fractions	61
Palm kernel oil-based derivatives and fractions	39

2.3 Please estimate the regional distribution of your company's uncertified and certified palm oil, palm kernel oil and related products sales (as declared in Question 2.2) in the following countries/regions.

Countries/Regions	Percentage
Europe	35
North America	65
Malaysia	0
Indonesia	0
China	0
India	0
Latin America	0
Africa	0
Rest of World	0

2.4 Volume of RSPO-certified palm oil, palm kernel oil and related products purchased for use in your company's own-brand and third-party brand products in the year:

Description	Crude/Refined Palm Oil (CSPO)	Crude/Refined Palm Kernel Oil (CSPKO)	Palm Kernel Expeller (CSPKE)	Certified Derivatives and Fractions
RSPO Credits from Mill / Crusher	0.00	0.00	0.00	395.00
RSPO Credits from Independent Smallholder	0.00	0.00	0.00	0.00
Mass Balance (MB)	1116.72	0.00	0.00	0.00
Segregated (SG)	0.00	0.00	0.00	0.00
Identity Preserved (IP)	0.00	0.00	0.00	0.00
Total	1116.72	0.00	0.00	395.00

2.4.1 Please estimate the percentage of RSPO-certified derivatives and fractions (reported in Question CG.2.4) derived from RSPO-certified palm oil or from RSPO-certified palm kernel oil. The default split for volumes is assumed to be 80% palm oil-based derivatives and 20% palm kernel oil-based

Description	Percentage
Certified Palm oil-based derivatives and fractions	61
Certified Palm kernel oil-based derivatives and fractions	39

2.5 According to the volume information you have provided in Question 2.2 and Question 2.4, your company's certified palm oil and palm oil products uptake is:

100.33%

2.5.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake. This may include your usage of RSPO Credits to cover gaps in certified uptake, changes due to business environment, variations due to stock positions or efforts to support independent smallholders beyond volume commitments.

The 1,116.72 MTs of Mass Balance pertains to the Palm Olein oil used in our Infant Formula, which is produced in our Vermont and Ohio location and is exclusively sourced as CSPO from 2 oil suppliers. 80+% of this palm is purchased as Segregated, but since our plants are not yet certified to Segregated (later this year), we are claiming it as MB.

The 395 MTs of derivatives is what is known and tracked at this time within our global operation, and includes a multitude of derivatives in our OTC pharmaceutical and cosmetic products, typically <1% in most products. As we gather more data in our international division and customers, we expect this will increase by 250-350 MTs before the end of the year, but unfortunately we will not have this data in time for the 2022 APOC (I can include for next year).

We have claimed a total of 785 RSPO credits for 2022. 385 were claimed to cover the MTs of known and measured derivative use for retailer customers and international subsidiaries. The additional 400 were claimed on behalf of "My own organization" to support the cause and cover any lingering quantities not known or not yet identified in time for 2022 APOC. Any additional credits claimed for 2022 after submission will be captured in next year's APOC.

2.6 Please estimate the regional sales volume distribution of your company's RSPO certified palm oil, palm kernel oil and related products (as declared in Question 2.4) in the following countries/regions:

Countries/Regions	Percentage
Europe	25
North America	75
Malaysia	0
Indonesia	0
China	0
India	0
Latin America	0
Africa	0
Rest of World	0

3. TimeBound Plan**3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification?**

2018

3.2 Which year did your company begin (or expects to begin) using RSPO-certified sustainable palm oil and palm oil products in own-brand products

2015

3.2.1 If the previous target year has not been met, please explain why.

First goal of 100% CSPO for palm oil purchased directly by Perrigo has been achieved. We implemented a policy to exclusively source CSPO and started purchasing MB in 2015/2016, and received site certifications in 2018. We started purchasing Segregated in 2020/2021 with the goal to achieve Segregated site certification in 2022/2023.

The 2025 goal is to address remaining indirect usage through physical certification (where feasible/appropriate) and RSPO credits. Due to the regulated nature of our drug and nutritional products, complexity of the supply chain and comparatively small use per product (typically <1%), physical certification is generally unrealistic and unpractical. As such, we expect to continue to apply RSPO credits for the majority of derivative use.

The biggest challenge to meeting our goal for indirect/derivative purchases is the general lack of data and/or visibility of palm derivatives, especially as we engage internationally.

3.3 Which year did your company begin (or expects to begin) using only RSPO-certified sustainable palm oil and palm oil products from any supply chain option in own-brand products.

2017

3.3.1 If the previous target year has not been met, please explain why.

See comment in 3.2.1

We started applying Green Palm/RSPO credits to a limited extent in 2015, and formally in 2017 to cover customer volumes.

3.4 Which year did your company begin (or expects to begin) using only RSPO-certified sustainable palm oil and palm oil products from physical supply chain options (Identity Preserved, Segregated and/or Mass Balance) in own-brand products.

2018

3.4.1 If the previous target year has not been met, please explain why.

See comment in 3.2.1

4. Trademark Use

4.1 Does your company use or plan to use the RSPO Trademark in own-brand products?

No

4.3 Please explain why your company does not plan to use the RSPO Trademark in own-brand products

- Challenging reputation of palm oil
- Confusion among end-consumers
- Costs of changing labels
- Difficulty of applying for RSPO Trademark
- Lack of customer demand
- Limited label space
- Low consumer awareness
- Low usage of palm oil
- Risk of supply disruption
- Others

Others

5. Actions for Next Reporting Period

5.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

- Participation in RSPO Working Group or Task Forces
- Support Independent Smallholders (ISH)
- Contribute to the RSPO Smallholder Trainer Academy
- Financial contribution to the RSPO Smallholder Support Fund
- Direct investments in Smallholder Certification projects
- Involvement/direct investments in Jurisdictional/Landscape approach
- Direct/collective investments in conservation and restoration initiatives
- Financial contribution to support members with Remediation and Compensation (RaCP) process, direct/collective investments in conservation and restoration initiatives
- Allocating FTE to promote the production or consumption of certified sustainable oil palm products
- Specific policies and action plans by the member to promote CSPO production or consumption in the upstream or downstream supply chain, including target dates or broader policies that include such efforts
- No activities planned
- Others

Other

-

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on <https://rspo.org/members/shared-responsibility> or email the Shared Responsibility team at sharedresponsibility@rspo.org.

Information & Public Availability

1.1 Does your organisation have organisational management documents publicly-available?

Yes

Ethical Conduct & Human Rights

1.2 Does your organisation have a publicly-available Policy covering Ethical Conduct & Human Rights?

Yes

1.2.1 Does the policy cover:

- Ethical conduct for contractors
- Ethical conduct for recruitment
- Respect of human rights, including for suppliers and sub-Contractors

Legal Compliance

1.3 Does your organisation comply with all applicable legal requirements?

Yes

1.4 Does your organisation require its third party contractors to comply with legal requirements, i.e. including a clause on legal compliance in the contracts?

Yes

Complaints & Grievances

1.5 Does your organisation have a Grievance Mechanism that is accessible to all affected parties?

Yes

1.5.1 Is your Grievance mechanism in line with the principles of the RSPO's Complaints System?

Yes

Land Use & FPIC**1.6 Does your organisation have a publicly-available policy covering Commitment to respect Free Prior and Informed Consent (FPIC) in the Palm Oil Supply chain?**No

Smallholders**1.7 Does your organisation support oil palm smallholders (groups)?**No

Labour & Labour Rights**1.8 Does your organisation have a publicly-available policy covering Labour & Labour Rights?**Yes

1.8.1 Does the policy cover:

- No discrimination and equal opportunities
- Pay and working conditions at least at legal or industry minimum standards and are sufficient to provide decent living wages (DLW)
- Freedom of association and Collective bargaining
- Protection of children, as well as the workforce of suppliers and third-party contractors
- Prevention of all forms of harassment, including sexual harassment
- No forced or trafficked labour

Occupational Health & Safety**1.9 Does your organisation have a publicly-available Policy covering Occupational Health & Safety?**Yes

1.9.1 Does your organisation have a Standard Operating Procedure (SOP) for Occupational Health & Safety?Yes

Waste Management

1.10a Does your organisation have a waste management plan that includes reduction, recycling, reusing and disposal based on the hazardous characteristics?

Yes

1.10a.1 Is this plan implemented?

Yes

Water Management

1.11 Does your organisation have a water management plan to promote efficient use and continued availability of water sources?

Yes

1.11.1 Is this plan implemented?

Yes

Energy Use

1.12 Does your organisation have an energy use plan to improve the efficiency of the fossil fuels used and to optimise renewable energy?

Yes

1.12.1 Are there records of implementation of the plan ie. monitoring and reporting?

Yes

Climate Change & Greenhouse Gas (GHG)

1.13 Does your organisation have a publicly-available policy covering Climate Change & Greenhouse Gas (GHG) including identification and assessment of GHG emissions and implementation of a plan to reduce or minimise them?

Yes

Claims and labels

1.15 Does your organisation promote the use of off-product RSPO claims and labels?

No

Challenges and Support

1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- Awareness of RSPO in the market
- Difficulties in the certification process
- Certification of smallholders
- Competition with non-RSPO members
- High costs in achieving or adhering to certification
- Human rights issues
- Insufficient demand for RSPO-certified palm oil
- Low usage of palm oil
- Reputation of palm oil in the market
- Reputation of RSPO in the market
- Supply issues
- Traceability issues
- No challenges faced
- Others

Others

Product regulations and complexity of the derivative supply chain

1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Communication and/or engagement to transform the negative perception of palm oil
- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Engagement with peers and clients
- Promotion of CSPO through off product claims
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
- Others

Others

-

1.3 If your company has any other publicly-available reports or information regarding its palm oil-related policies and activities, please provide the links here
