This is met, no comments

3.6.3 Please explain why your company does not have such a TimeBound Plan

It is depending on the customers request. Prices of raw materials are nowadays higher. This has already an impact on the price of the end product. It is up to the client to decide whether they want to add as well RSPO certified palm oil (it has an extra cost impact and it is on the clients request).

We proactively try to motivate all customers to go to at least mass balance certified palm oil + palm oil fractions + derivatives.

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile.
