### 2. Palm Oil and Certified Sustainable Palm Oil Consumption

*Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Consumption - is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed, to enable the RSPO to accurately calculate uptake of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.*

**2.1 Please list down all operations and subsidiaries using palm oil, palm kernel oil and related products that are owned and/or managed by the member, including those under Group Membership**

This is the first report that covers the full WBA group and includes the following operations: Boots Own Brand, No7Beauty Co. (Boots Asia), No7 Beauty Co (EUR), No7 Beauty Co (US & Canada), Own Brand (Boots Asia), Liz Earle, Walgreens (USA), Chile and Mexico. Walgreens Boots Alliance Inc. joined RSPO as a Group Member on 18 August 2021 and is providing its first Group ACOP report in 2023 for Calendar year 2022.

**2.1.1 In which markets does your company sell goods with palm oil and oil palm products?**

Europe °,North America °,China,Latin America °,Rest of the World °

**DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:**

an aggregate level (as in previous ACOP reporting cycles)

**2.2 Total volume of uncertified and certified palm oil, palm kernel oil and related products purchased for use in your company's own-brand products. Third-party brand products containing palm oil should be excluded.**

### 3. TimeBound Plan

#### 3.1 Which year did your company begin (or expects to begin) using RSPO-certified sustainable palm oil and palm oil products in own-brand products

2010

---

##### 3.1.1 If the previous target year has not been met, please explain why.

This is the first year WBA is reporting as a group. However Boots / No7 Beauty Company own-brand previously reported for 2021 and previous years.

Boots / No7 Beauty Company started using RSPO CSPO in 2010 and as a whole WBA Group we are committed to use RSPO-certified sustainable palm oil and palm-oil products in all own-brand products. Target met.

---

#### 3.2 Which year did your company begin (or expects to begin) using only RSPO-certified sustainable palm oil, palm kernel oil and related products from any supply chain option in own-brand products.

2022

---

##### 3.2.1 If the previous target year has not been met, please explain why.

This is the first year WBA is reporting as a group. However Boots / No7 Beauty Company own-brand previously reported for 2021 and previous years.

This target has been met in 2014 for Boots / No7 Beauty Company own brand products.

2022 is the first year that we are using 100% RSPO-certified sustainable palm oil, palm kernel oil and their derivatives in all own-brand products across the total WBA Group. Target has been met through both use of credits and physically-certified sources.

---

#### 3.3 Which year did your company begin (or expects to begin) using only RSPO-certified sustainable palm oil and palm oil products from physical supply chain options (Identity Preserved, Segregated and/or Mass Balance) in own-brand products.

2030

---

**3.3.1 If the previous target year has not been met, please explain why.**

This is the first year of extending the reporting to WBA as an entire group, so the target date has been updated to 2030 in order to achieve 100% physically-certified sustainable palm oil and palm products.

Boots / No7 Beauty Company own-brand previously reported for 2021. There was a previous target of 75% physically certified palm oil for 2022. This was not met in overall volumes across the calendar year, due to supply chain challenges and sales volumes of those palm-containing products. We did however achieve an increase in physically certified palm in 2022, by completing the transfer of some key raw materials from RSPO credits to mass balance. By 2022 calendar year end, 72%+ of the palm-containing raw materials being used in our own-brand products were being sourced from physical supply chain options.

The target for Boots/No 7 Beauty Company own-brand, for fiscal 2023 is increasing by a further 5%, to 80% palm oil / palm kernel oil and their derivatives from physical supply chain options. Walgreens own brand (US) target is to increase use of physically certified palm oil/palm kernel oil and their derivatives by 5% per year, using 2023 as the baseline year.

**3.4 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why**

The commitments listed in RT.3.3.1, cover year on year targets from Boots/No7 Beauty Company (UK, EUR, THAI) and Walgreens (US), which represents an estimated 97% of the own-brand products across the group.

There are no year-on-year targets for the remaining 3% yet, as we are looking to gather more details about these products and their raw material supply chains ahead of assigning yearly targets.

#### 4. Trademark Use

##### 4.1 Does your company use or plan to use the RSPO Trademark in own-brand products?

No

---

##### 4.3 Please explain why your company does not plan to use the RSPO Trademark in own-brand products

- Challenging reputation of palm oil
- Confusion among end-consumers
- Costs of changing labels
- Difficulty of applying for RSPO Trademark
- Lack of customer demand
- Limited label space
- Low consumer awareness
- Low usage of palm oil
- Risk of supply disruption
- Others

Others

Palm oil is often in our products at low levels or in the form of derivatives. Therefore there is low relevance of trademark in these cases. We have also had supply issues and would not be easily able to turn off/on trademarks on artworks without stock disruption.

---

## 5. Actions for Next Reporting Period

### 5.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

- Participation in RSPO Working Group or Task Forces
- Support Independent Smallholders (ISH)
- Contribute to the RSPO Smallholder Trainer Academy
- Financial contribution to the RSPO Smallholder Support Fund
- Direct investments in Smallholder Certification projects
- Involvement/direct investments in Jurisdictional/Landscape approach
- Direct/collective investments in conservation and restoration initiatives
- Financial contribution to support members with Remediation and Compensation (RaCP) process, direct/collective investments in conservation and restoration initiatives
- Allocating FTE to promote the production or consumption of certified sustainable oil palm products
- Specific policies and action plans by the member to promote CSPO production or consumption in the upstream or downstream supply chain, including target dates or broader policies that include such efforts
- No activities planned
- Others

Other

- 1) We continue to work with the Retailer Palm Oil Group to collectively improve the availability and credibility of RSPO physically certified palm oil.
  - 2) As members of the Palm Oil Transparency Coalition we are working with palm oil first importers to improve supply chain verification and standards for certified palm oil.

## Shared Responsibility

*The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on <https://rspo.org/members/shared-responsibility> or email the Shared Responsibility team at [sharedresponsibility@rspo.org](mailto:sharedresponsibility@rspo.org).*

- Communication and/or engagement to transform the negative perception of palm oil
- Engagement with business partners or consumers on the use of CSPO
- Engagement with government agencies
- Engagement with peers and clients
- Promotion of CSPO through off product claims
- Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- Promotion of physical CSPO
- Providing funding or support for CSPO development efforts
- Research & Development support
- Stakeholder engagement
- No actions taken
- Others

#### Others

We are driving awareness of CSPO palm within the supply chain however via our Sustainability Hub which includes a knowledge bank detailing CSPO information as well as being a way to gather data on our products and their raw materials.

Our R&D team have regular meetings, workshops and discussions with raw material suppliers to understand and drive the increase in CSPO physically-certified material options and availability.
