ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

3. TimeBound Plan**3.1 Which year did your company begin (or expects to begin) using RSPO-certified sustainable palm oil and palm oil products in own-brand products**

2015

3.1.1 If the previous target year has not been met, please explain why.

.

3.2 Which year did your company begin (or expects to begin) using only RSPO-certified sustainable palm oil, palm kernel oil and related products from any supply chain option in own-brand products.

2027

3.2.1 If the previous target year has not been met, please explain why.

Wendy's remains on its journey to using 100% CSPO and aims that it be at least Mass Balance by our goal. Through RSPO's PalmTrace Credits, we have achieved 100% coverage of certified sustainable palm oil as an ingredient for products in the U.S., Canada, India, Indonesia and rest of world at 100%. We are working with our international leadership and each independent franchisee in Latin America to transition to CSPO as part of our responsible sourcing program.

3.3 Which year did your company begin (or expects to begin) using only RSPO-certified sustainable palm oil and palm oil products from physical supply chain options (Identity Preserved, Segregated and/or Mass Balance) in own-brand products.

2027

3.3.1 If the previous target year has not been met, please explain why.

By end 2030 our sustainable sourcing standards require all Palm Oil sourced by suppliers for use as Wendy's restaurant cooking oil and supplier par fry-oil to be RSPO physically certified. This represents the largest volume of palm oil in the Wendy's system. In 2022 43% of these volumes were RSPO physically certified. Wendy's has procured additional palm trace credits so we continue to meet our shared responsibility goal, bringing the total certified palm oil to 66%.

3.4 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

It is worth noting that these restaurants are all owned by franchise groups that do not conduct purchasing through a centralized cooperative structure as we do in the U.S. and Canada. This diversity makes CSPO from physical supply chains challenging in those markets, but we are in the process of establishing a plan to achieve CSPO internationally - with the minimum being Book & Claim certificates. Philippines, New Zealand and Indonesia are all sourcing 100% RSPO MB so we look forward to reporting that improvement. We also aim to seek a solution for the sourcing of palm oil from physical supply chains for cooking by 2027.

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on <https://rspo.org/members/shared-responsibility> or email the Shared Responsibility team at sharedresponsibility@rspo.org.
