ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

Our products are manufactured by CMOs, so Karo does not have control over the supply chain of raw materials and ingredients. We combined the ingredient lists of all our products (ex. INCI for cosmetics) and calculated the weight sold for each of them. We identified some of these ingredients as possibly derived from palm oil, which added up to 837 tonnes. We used the book and claim scheme (CSPOs) for these 837 tonnes, so our approach is conservative (some of the ingredients could be already sustainable, and some CMOs or upstream suppliers are using the book and claim scheme themselves).

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on https://rspo.org/members/shared-responsibility or email the Shared Responsibility team at sharedresponsibility@rspo.org.
