2.1.1 In which markets do you sell goods with palm oil and palm oil-related products?

Europe ,North America ,China,India,Malaysia,Indonesia,Africa ,Latin America ,Rest of the World

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level	(as in previous ACC	OP reporting cycles)	

Processor and/or Trader Page 3/7

$2.2\ Total\ volume\ of\ RSPO\text{-}certified\ (IP, MB, SG\ and\ RSPO\ Credits/Book\ and\ Claim)\ and\ Non\ RSPO\text{-}certified\ palm\ oil,\ palm\ kernel\ oil\ and\ related\ product\ sourced\ in\ the\ year$

Description	Tonnes

Crude palm kernel oil, including derivatives refined from CPKO (tonnes)	18021.00
Crude palm kernel expeller (tonnes)	0.00
Total	93737.00

2.3 Volume of RSPO-certified palm oil, palm kernel oil and related products sourced in the year (tonnes):

2.4 According to the volume information you have provided in Question PT.2.2 and Question PT.2.3, your company's certified palm oil, palm kernel oil and related products uptake is:

43.33%

2.4.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake calculated in PT.2.4. This may include changes due to business environment, evolving nature of operations or variations due to stock positions

The total volumes above include blends & shortenings, oleochemicals and other fat based products where a proportion of the recipe contains processed CPO and/or CPKO varying from 5% to over 80%. We have used averages by product type for the above calculations. The volumes of palm oil have reduced compared to 2022 due to the sale of our Sweet Ingredients Business to Irca in March 2023. This has also led to a small overall percentage reduction of RSPO MB/SG/IP certified materials compared to the previous years. Like for like, our RSPO certified volumes for the remaining business have increased by $\sim 3\%$

2010
3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products?
2010
3.2.1 If the previous target year has not been met, please explain why.
3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities.
2018
3.3.1 If the previous target year has not been met, please explain why.
3.4 Year expected to only source RSPO-certified palm oil and oil palm products.
2030
3.4.1 If target has not been met, please explain why.
Market willingness, availability of oil as well as acceptance by customers to purchase RSPO certified palm & palm kernel oil against a premium price differs by region Next to Europe, we see a more positive momentum in North America where availability of certified fractions of oil is improving. In the other regions it is more complicated especially for availability of SG or IP oil in line with compliance towards Deforestation & Conversion Free commitments by 2025.
3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why
