3.00	
6.5.2 What is your company's annual GHO percentage terms)?	G emissions reduction/minimising target (in absolute tCO2e/tCPO or in
2030	

Growers Page 11/14

6.5.3 What measures are currently being taken to reduce GHG emissions?

OPG operations (mills and all its supply base_has negative emission or sequester carbon from atmosphere. However, Olam as a company has GHG emission reduction target by 50% both in our own operations and managed farmers program by 2030. Measures will include increase operational efficiency, avoid high carbon stocks for land development and climate smart agricultural practices and biogas capture plant to be installed at all palm oil mills.

7. Support for Oil Palm Smallholders

7.1 How is your company supporting Independent Smallholder groups?
☐ Sourcing of physical FFB
Financial support
Operations support
☐ Training support
Community development
☐ Not supporting Independent Smallholder groups
✓ Others
Others
Not Applicable
7.1.1 Please provide the names and locations of the oil palm Independent Smallholder groups that you are currently supporting. This question is not mandatory, and is left to the discretion of the RSPO member to answer.
Not Applicable

Growers Page 13/14

8. Actions For Next Reporting Period

8.1 Outline activities that your company will undertake in the coming year to advance its certification efforts.

Not Applicable since we are 100% P&C and SC certified

8.2 Outline activities that your company will undertake in the coming year to promote the uptake CSPO along the supply chain.

No specific plan but we will still continue to encourage our conventional buyers to be RSPO certified where possible taking in account their business context.

Growers Page 14/14

Processors & Traders

1. Operational Profile

1.1 Please state your company's main activity within the palm oil supply chain.
✓ Refiner of CPO and PKO
Palm Kernel Crusher
▼ Trader with Physical Possession
Trader without Physical Possession
Integrated Refiner-Trader-Processor
✓ Intermediate Products Producer
Power, Energy and Biofuel Processor
Animal Feed Producer
Oleochemicals Producer
Distribution & Logistics
Other
Other

Processor and/or Trader Page 1/6

2. Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Sourcing is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please include details of all certified and uncertified operations using palm oil, palm kernel oil and related products, owned and/or managed by the member and/or all entities that belong to the group.

We operate edible oil processing and refining facilities in Gabon, Nigeria, Mozambique, Malaysia and the U.K.. These facilities, along with our oil palm plantations in Gabon, support our integrated palm oil supply chain. In Nigeria, we refine crude vegetable oils and refined, bleached and deodorised palm oil and palm olein, while In Mozambique we produce Refined Bleached & Deodorized Palm Olein which is fortified with Vitamin A & D as per local govt regulations. Additionally, we produce laundry soap for local consumers by using the by-product derived from palm refining.

For Gabon, we operates three RSPO certified kernel crushers. Olam Food Ingredients UK Limited is also a RSPO certified facility producing various food ingredients.

2.1.1 In which markets do you sell goods with palm oil and palm oil-related products?

Europe ,China,India,Malaysia,Africa ,Rest of the World

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)

Processor and/or Trader Page 2/6

2.2 Total volume of RSPO-certified (IP, MB, SG and RSPO Credits/Book and Claim) and Non RSPO-certified palm oil, palm kernel oil and related product sourced in the year

Description	Tonnes	
Crude palm oil, including derivatives refined from CPO (tonnes)	1341747.43	
Crude palm kernel oil, including derivatives refined from CPKO (tonnes)	9289.00	
Crude palm kernel expeller (tonnes)	0.00	
Total	1351036.43	

2.3 Volume of RSPO-certified palm oil, palm kernel oil and related products sourced in the year (tonnes):

Description	Crude Palm Oil (CSPO) and CSPO Derivatives	Crude Palm Kernel Oil (CSPKO) and CSPKO Derivatives	Palm Kernel Expeller (CSPKE)
RSPO Credits from Mill / Crusher	0.00	0.00	0.00
RSPO Credits from Independent Smallholder	0.00	0.00	0.00
Mass Balance (MB)	14604.12	2435.26	0.00
Segregated (SG)	7243.62	0.00	0.00
Identity Preserved (IP)	30139.00	3502.08	0.00
Total	51986.74	5937.34	0.00

Processor and/or Trader Page 3/6

2.4 According to the volume information you have provided in Question PT.2.2 and Question PT.2.3, your company's certified palm oil, palm kernel oil and related products uptake is:

1	2	O	0/
4		7	/(

2.4.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake calculated in PT.2.4. This may include changes due to business environment, evolving nature of operations or variations due to stock positions

Certified sourcing depends on the market demand.

2.5 What is the estimated percentage of Certified Sustainable Palm Oil in the palm oil, palm kernel oil and related products sold, traded or processed by your company in the following regions:

Countries/Regions	Percentage
Europe	93
North America	0
Malaysia	7
Indonesia	0
China	0
India	0
Latin America	0
Africa	0
Rest of World	0

Processor and/or Trader Page 4/6

3. TimeBound Plan

3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification or RSPO trader/distributor licence?

2011

3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products?

2011

3.2.1 If the previous target year has not been met, please explain why.

we are sourcing RSPO certified products since 2011 and based on market demand.

3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities.

2022

3.3.1 If the previous target year has not been met, please explain why.

Our processing facilities in UK, Malaysia and 3 KCPs in Gabon are RSPO certified.

In 2023, we have achieved RSPO Supply Chain certification for our 3 other facilities, in Mozambique and Nigeria - Africa.

Meanwhile, Gabon Refinery has completed the RSPO certification audit in November 2023 and waiting for the certificate to be issued.

3.4 Year expected to only source RSPO-certified palm oil and oil palm products.

2030

3.4.1 If target has not been met, please explain why.

Olam group has achieved its target of RSPO certification of all its own plantations and mills as per plans. For sourcing from third party suppliers to be 100% RSPO certified, entire industry needs to be transformed to the stage where most of the consumers demand certified oil and most of the producers accordingly work towards producing certified products. As long as demand potential remains lower than certified capacity, the movement towards certified oil becoming the norm & convention would continue to need the support and push from all stakeholders. Olam remains fully committed to work towards certified palm oil becoming the market norm and will continue to extend its sustainability commitments to third- party supply chain as well through engagement with suppliers, customers, and all other stakeholders to help the industry move towards achieving RSPO's vision of full sustainability.

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

The 100% RSPO certified sourcing target is specific and responding to different market demand. However, for our facilities which are serving African consumers, there is no demand for RSPO products and lack of supply chain actors in the region.

For volume sourced on behalf of our customers in Asia, there is no demand for RSPO certified products. Regardless of its certification status, all volume we processed or sourced from third party are subject Olam's policy and due diligence.

Processor and/or Trader Page 5/6

4. Actions For Next Reporting Period

4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)		
\checkmark	Participation in RSPO Working Group or Task Forces	
	Support Independent Smallholders (ISH)	
	Contribute to the RSPO Smallholder Trainer Academy	
	Financial contribution to the RSPO Smallholder Support Fund	
	Direct investments in Smallholder Certification projects	
	Involvement/direct investments in Jurisdictional/Landscape approach	
	Direct/collective investments in conservation and restoration initiatives	
	Financial contribution to support members with Remediation and Compensation (RaCP) process, direct/collective investments in conservation and restoration initiatives	
	Allocating FTE to promote the production or consumption of certified sustainable oil palm products	
\checkmark	Specific policies and action plans by the member to promote CSPO production or consumption in the upstream or downstream supply chain, including target dates or broader policies that include such efforts	
	No activities planned	
\checkmark	Others	
Oth	ner	
	e will continue to actively engage customers in making the move to RSPO SG or other physical certified materials, oviding education on the benefits it has to offer in terms of traceability and sustainable action on the ground.	

Processor and/or Trader Page 6/6

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on https://rspo.org/members/shared-responsibility or email the Shared Responsibility team at sharedresponsibility@rspo.org.

https://rspo.org/members/shared-responsibility or email the Shared Responsibility team at sharedresponsibility@rspo.org.

Challenges and Support

1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?		
Awareness of RSPO in the market		
Difficulties in the certification process		
Certification of smallholders		
Competition with non-RSPO members		
High costs in achieving or adhering to certification		
✓ Human rights issues		
✓ Insufficient demand for RSPO-certified palm oil		
Low usage of palm oil		
Reputation of palm oil in the market		
Reputation of RSPO in the market		
✓ Supply issues		
✓ Traceability issues		
No challenges faced		
Others		
Others		
_		
1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?		
✓ Communication and/or engagement to transform the negative perception of palm oil		
✓ Engagement with business partners or consumers on the use of CSPO		
✓ Engagement with government agencies		
✓ Engagement with peers and clients		
Promotion of CSPO through off product claims		
Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations		
✓ Promotion of physical CSPO		
Providing funding or support for CSPO development efforts		
Research & Development support		
✓ Stakeholder engagement		
No actions taken		
Others
