Olenex is committed to continuously increasing its share of RSPO certified sustainable palm oil in line with its commitment to Shared Responsibility. Being a processor & trader, Olenex depends on both demand and supply to ensure this. The demand for RSPO certified sustainable products by downstream actors, especially end product manufacturers has been greatly influenced by negative consumer sentiments, and sales outside the EU market. To counter this, Olenex continuously advocates the benefits of RSPO certified sustainable palm oil among its customers and wider stakeholder community. It should further be noted that Olenex customers demand conventional palm oil products to be later covered with RSPO Credits as well as palm oil products certified under other certification schemes. And supply on the other hand is becoming a challenge limiting any possibility to increase uptake. Shortage in supply of RSPO certified sustainable palm oil / palm kernel oil, its fractions and derivatives are driving customers towards either conventional or alternative sources which does not help in RSPO's vision of making sustainable palm oil the norm. Nonetheless, Olenex remains fully committed to the RSPO's vision to make sustainable palm oil the norm.

3. TimeBound Plan

Olenex only operates in EU.

3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification or RSPO trader/distributor licence?
2010
3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products?
2011
3.2.1 If the previous target year has not been met, please explain why.
Target was met.
3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities.
N/A
3.3.1 If the previous target year has not been met, please explain why.
Target was met.
3.4 Year expected to only source RSPO-certified palm oil and oil palm products.
N/A
3.4.1 If target has not been met, please explain why.
Olenex is committed to increasing its share of RSPO certified sustainable palm oil in line with its commitment to Shared Responsibility. Being a processor & trader, Olenex depends on both demand and supply to ensure this. The demand for RSPO certified sustainable products by downstream actors, especially end product manufacturers has been greatly influenced by negative consumer sentiments, and sales outside Europe. Olenex is sourcing more RSPO certified oil palm products than purchased by its customers which is visible in a growing stock of MB rights per Olenex location. This shows that our sales are completely dependent on our customers. We have always stated that as soon as customers demand only 100% RSPO certified oil palm products in physical supply chains, we will deliver it. Olenex will not be able to source 100% RSPO as long as our customers 1) use RSPO B&C credits (and therefore buy conventional from us); or 2) demand other certification schemes Additionally given the increasing shortages see on the supply of RSPO certified sustainable palm oil / palm kernel oil, its fractions and derivatives which is driving customers towards either conventional or alternative sources it makes it even more difficult to envision a target year. Nonetheless, Olenex remains fully committed to the RSPO's vision to make sustainable palm oil the norm. Because we cannot foresee when all Olenex customers will demand 100% RSPO certified palm oil in physical supply chains nor ample supply of RSPO certified products, Olenex cannot provide a target year.
3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on https://rspo.org/members/shared-responsibility or email the Shared Responsibility team at sharedresponsibility@rspo.org.

Challenges and Support

1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?
Awareness of RSPO in the market
✓ Difficulties in the certification process
✓ Certification of smallholders
✓ Competition with non-RSPO members
✓ High costs in achieving or adhering to certification
✓ Human rights issues
✓ Insufficient demand for RSPO-certified palm oil
Low usage of palm oil
Reputation of palm oil in the market
✓ Reputation of RSPO in the market
✓ Supply issues
Traceability issues
No challenges faced
✓ Others
Others In addition to the challenges selected, general market resistance to paying premium for RSPO certified material. The negative claims from NGOs on RSPO MB prevents customers from buying MB and Olenex from buying MB from origin countries. Shortage of certified RSPO PKO stimulates the negative sentiment of RSPO in the downstream market and threats of leaving RSPO for alternatives like EU compliant oil.
1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?
Communication and/or engagement to transform the negative perception of palm oil
✓ Engagement with business partners or consumers on the use of CSPO
✓ Engagement with government agencies
✓ Engagement with peers and clients
✓ Promotion of CSPO through off product claims
✓ Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
Promotion of physical CSPO
Providing funding or support for CSPO development efforts
Research & Development support
✓ Stakeholder engagement
No actions taken
