The remaining palm oil producing companies are part of an engagement program where Robeco requires them to make progress towards full RSPO certification and addresses potential controversies and breaches of the UN Global compact. Palm oil producing companies that do not reach 80% RSPO certified plantations by 31 December 2024 will then be excluded.

Robeco actively engages with all palm oil producing companies in our investment portfolios that have less than 80% of their plantations RSPO certified, as well as is advocating for no deforestation and responsible stakeholder management through its broader engagement work with soft commodity companies and its sovereign engagement efforts with Indonesia. Besides this, Robeco has contributed to the development of the Zoological society of London's Sustainability Policy Transparency Toolkit (ZSLSPOTT) palm oil benchmark as a member of its Technical Advisory Group. Finally, we regularly participate in webinars/events to promote sustainable palm oil / increase awareness amongst other financial institutions on sustainable palm oil /the RSPO (eg. together with WWF). Within the FICG, Robeco is an active member and is promoting RSPO membership and the RSPO standard within non-FI members. As such, we reached out to various Asian FI's to create awareness on the RSPO and the RSPO standard and we continue to do so. Furthermore, we promoted the RSPO in an IDX webinar on sustainable investing together with the Investor Policy Dialogue on Deforestation.

In the coming year, we will continue our engagement with palm oil producers to promote them to increase the percentage of RSPO-certified plantations to at least 80% by the end of 2024, and ultimately achieve 100% certification. We will also continue our engagement with FI's in Asia to raise awareness on the RSPO and seek for collaboration opportunities. In Q4 2024 we will look into continuing our engagement program with a stronger focus on downstream palm oil players.

Shared Responsibility

The Board of Governors of the Roundtable on Sustainable Palm Oil approved new Shared Responsibility rules on 31 October 2019, requiring all members to share sustainability requirements and obligations. Reporting of Shared Responsibility (SR) requirements will be done through ACOP and MyRSPO. As the process of verification of the reports is in development, the Shared Responsibility section in ACOP may change in future ACOP cycles. Evidence to show compliance to the SR requirements shall be uploaded via your membership profile in MyRSPO. Please login to your MyRSPO account and upload the relevant policies, plans and relevant reports there. If you do not have a policy or your policy does not cover all items, you will be required to provide a Declaration of Support for the relevant policy items in your MyRSPO profile. Additional information on the required policies and plans applicable to all sectors as well as the annual uptake targets for supply chain actors can be found on <https://rspo.org/members/shared-responsibility> or email the Shared Responsibility team at sharedresponsibility@rspo.org.
