Grower

1. Operational Profile

1.1 Please state your company's main activities as a palm oil grower:

- ☐ Oil palm grower without palm oil mill
- ☐ Oil palm grower with palm oil mill
- ☒ Oil palm grower with palm oil mill and palm kernel crushing plant
- ☐ Independent palm oil mill
- ☐ Smallholder Group Manager

2. Operations and Certification Progress

*Information in Section 2.0 - Operations and Certification Progress - is a mandatory declaration in your ACOP. This includes hectareage data, to enable the RSPO to accurately calculate certification of individual members, sectors and RSPO members as a whole. ACOP reports without reported hectareage data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.*

2.1 Land area controlled and managed associated to palm oil

2.1.1 Please state the total number of palm oil estates, certified and uncertified, controlled or managed by the member

#### 4. TimeBound Plan

##### 4.1 Which year did your company achieve (or plans to achieve) its first RSPO P&C certification?

2025

##### 4.2 Which year did your company achieve (or plans to achieve) 100% RSPO certification for all its estates and mills?

2025

##### 4.2.1 If the previous target year for G.4.2 has not been met, please explain why

Following the completion of the LUCA and HCV studies, the organization committed to a remediation and compensation plan. As a result, in 2023, the development of the concept note was initiated, a process that concluded in January 2024 with its submission to the RSPO. During the approval process, adjustment requests were made by the entity, which caused delays. The approval was ultimately obtained in March 2025.

##### 4.4 Which year did your company achieve (or plans to achieve) 100% RSPO certification for all FFB, regardless of source?

2025

##### 4.4.1 If the previous target year for G.4.4 has not been met, please explain why

We are currently in the process of developing the LUCA study for the producers, as part of the progress toward the next stage: selecting the certification body.

## 5. Concession Boundaries

**5.1 The RSPO General Assembly Resolution 6G (2013) calls for all members with Grower operations to submit their concessions boundaries through ACOP. Has your company submitted complete concession boundaries up to supply base level to the RSPO in previous ACOP cycles as per Formatting Requirements for Plantation Boundary Data Submission Guidelines?**

No

---

**5.3 Please upload your company's updated estate location concession boundaries here. This requirement only applies if your company has made changes to its concession boundaries from previous submissions in ACOP or if the member is submitting concession boundaries through ACOP for the first time**

## 6. GHG Footprint

### 6.1 Has your company started quantifying its GHG emissions and monitoring?

No

#### 6.1.2 No. Please explain why your company has yet to start GHG emissions tracking and monitoring

No, the monitoring of Greenhouse Gases (GHG) is starting this year, as we previously did not have access to the appropriate calculator.

#### 6.2.1 What is the average GHG emissions by hectare (tCO<sub>2</sub>e/ha) for all certified management units in this reporting year?

0.0

#### 6.2.2 What is the average GHG emissions per tonne of crude palm oil (tCO<sub>2</sub>e/tCPO) for all certified management units in this reporting year?

0.0

### 6.3 What are the key emission sources identified by your company in certified management units?

- ☐ Land use change
- ☐ Existing cultivation peatland
- ☐ Palm oil mill effluent (POME)
- ☐ Fertiliser application
- ☒ Others

Others

The organization does not have certified management units; however, it has identified its main sources of greenhouse gas emissions, which include: effluents, fertilizer application, land-use change, and emissions from combustion equipment.

### 6.4.1 Does your company have a long-term target?

Yes

#### 6.4.1.1 Yes. Kindly provide your company target(s).

Yes,

Commitment of Senior Management:

2025: Ensure the integration of the Society and its value chain into high value-added processes that drive greater responsible economic growth for the region.

Best Practices in Responsible Production and Consumption:

Zero Social Exploitation:

2025: Jurisdictionally consolidate the implementation of the Zero Social Exploitation Policy in Southern Bolívar as a natural subregion, ensuring best sustainability practices in agricultural production and industrial processing.

Zero Deforestation:

2025: Jurisdictionally consolidate the implementation of the Zero Deforestation Policy in Southern Bolívar as a natural subregion, ensuring best sustainability practices in agricultural production and industrial processing. In addition, participate in the development of a long-term strategy for wildlife and flora restoration and conservation.

Partnerships for Development.

2025: Jurisdictionally consolidate the implementation of sustainable development measurement mechanisms for the established agreements.

---

**6.4.2 What is your baseline year for setting the target?**

2025

**6.4.3 What is your target baseline (average tCO<sub>2</sub>e/tCPO)?**

0.12

**6.5 Does your company have an annual GHG emissions reduction/minimising target?**

Yes

**6.5.1 What is your company's annual GHG emissions reduction/minimising target (in absolute tCO<sub>2</sub>e/tCPO or in percentage terms)?**

20

**6.5.2 What is your company's annual GHG emissions reduction/minimising target (in absolute tCO<sub>2</sub>e/tCPO or in percentage terms)?**

2026

**6.5.3 What measures are currently being taken to reduce GHG emissions?**

The organization is in the process of designing and implementing new practices and technologies, with the goal of achieving the targets established in its greenhouse gas (GHG) reduction plan.

## 7. Support for Oil Palm Smallholders

### 7.1 How is your company supporting Independent Smallholder groups?

- ☐ Sourcing of physical FFB
- ☐ Financial support
- ☒ Operations support
- ☒ Training support
- ☒ Community development
- ☐ Not supporting Independent Smallholder groups
- ☒ Others

Others

Through its environmental and social technical assistance unit, the organization provides support to small independent producers in adopting good agronomic, environmental, and social practices, thereby promoting the sustainability of the crop

#### 7.1.1 Please provide the names and locations of the oil palm Independent Smallholder groups that you are currently supporting. This question is not mandatory, and is left to the discretion of the RSPO member to answer.

As you are aware, in 2017 the Grant Agreement Number RSSF/00030/Colombia/2017 was signed, titled 'RSPO Certification for 3,715 hectares of Oil Palm for 278 small independent producers in the Southern Region of Bolívar, as a strategy to promote their technical, social, economic, and environmental sustainability.' This agreement was entered into between the Roundtable on Sustainable Palm Oil (RSPO) and the company Promotora Superior S.A.S., and was set to begin on April 1, 2018.

## 8. Actions For Next Reporting Period

### 8.1 Outline activities that your company will undertake in the coming year to advance its certification efforts.

We are convinced that the implementation of sustainability through innovation and quality management across all our activities will enrich our journey toward becoming a leading organization in the transformation of the Colombian oil palm sector. Regardless of how complex the path may be, we will continue to integrate more allied producers into our value chain, promoting better responsible agricultural practices that increase yields and improve their quality of life; ensuring dignified and safe working conditions for our employees and contractors; and involving more stakeholders in social and environmental development programs that benefit our communities.

The organization defines the following key issues as part of its sustainable development strategy:

Ensure increased productivity in our own plantations and oil extraction rates aligned with national and international benchmarks for best agro-industrial practices, while complying with the sustainability production requirements of programs such as the Roundtable for the International Certification of the Carbon Footprint of Sustainable Palm Oil.

Through technical assistance, ensure increased productivity in the plantations of allied producers within the supply (value) chain, in alignment with sustainability program requirements. Likewise, implement improvements in eco-efficiency and environmental management indicators in the operations of the mill.

Through technical assistance, ensure the implementation of the Zero Social Exploitation Policy requirements in the operations of allied producers within the supply (value) chain. Similarly, implement improvements in social management indicators with employees and surrounding communities in the mill's area of influence.

Through technical assistance, ensure the implementation of the Zero Deforestation Policy requirements in the operations of allied producers within the supply (value) chain. Likewise, implement improvements in strategic resource protection management indicators (such as biodiversity in plantations or areas of high conservation value) within the mill's area of influence.

The organization will ensure the implementation of the Transparency and Traceability Policy requirements, along with complementary policies, for the operations of allied producers within the supply (value) chain. Similarly, improvements will be implemented in indicators related to the promotion of legal compliance and normalization efforts within the mill's area of influence.

### 8.2 Outline activities that your company will undertake in the coming year to promote the uptake CSPO along the supply chain.

The Organization focuses its economic activity on sustainable growth and value creation, based on principles of zero social exploitation, zero deforestation, and transparency and traceability in the supply chain. Therefore, the Organization conducts its operations by upholding best practices in responsible production and consumption, and extends the Senior Management's strong commitment to sustainability throughout its entire value chain.

From the sourcing of fresh oil palm fruit bunches, to their processing at the mill, and ultimately to the distribution to our clients, the Organization is committed to complying with strict social, environmental, and regulatory standards, as part of a continuous effort to generate positive impacts.

## Challenges and Support

### 1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?
