8. Actions For Next Reporting Period

8.1 Outline activities that your company will undertake in the coming year to advance its certification efforts.

Provide appropriate partnerships and capacity building programs with non-certified operating units to improve capacity to implement sustainability practices and reduce knowledge gaps among staff. With the support of internal professionals with diverse experience, internal training programs could be planned and implemented to meet the requirements of the certification process and preparations for the noncertified operating unit. Gap assessment by external auditors will be part of the plan to accelerate the certification process.

8.2 Outline activities that your company will undertake in the coming year to promote the uptake CSPO along the supply chain.

We will continue to work with our relevant stakeholders to promote the sustainability agenda and highlight the importance of sustainable production to the business and supply chain. This will be done through direct outreach, webinars and collaboration on potential projects across the value chain.

1.1 What significant obstacles or challenges has your company encountered in the promotion of certified

- Others
- 1. The complexity of downstream oleochemical processes and fractions complicates market entry. IOI Oleo leads the ASEAN Oleochemicals Manufacturers Group (AOMG) in drafting rules for RSPO oleochemicals to promote growth of RSPO-certified oleochemical derivatives and ensure manageable entry cost to spur demand.
- 2. Low awareness of sustainable palm oil in the market. IOI promotes the goodness of CSPO via engagement with suppliers and buyers.
- 3. Pricing competition with non-RSPO certified products.
- 4. Lack of awareness from the suppliers regarding the NDPE policy. IOI engaged with suppliers to create awareness regarding the importance of implementing the NDPE policy. Promoting other-than-premium inherent benefits to suppliers quality preservation, social responsibility, GHG monitoring, enhanced traceability etc.
- 5. Lack of support from the Federal government to mandate RSPO uptake among industry players in Malaysia. Leverage on meetings/ seminar to highlight the importance of government support in supporting CSPO uptake among industry players in Malaysia.

1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported

- 1. Expand customer base by promoting CSPO to buyers from countries with lower sustainable palm oil demand.
- 2. Consider buying more CSPO to support RSPO certified mills.
- 3. Research and development for premium quality CSPO.
- 4. Continual reduction of GHG emission for CSPO products.
- 5. Supporting initiatives for supply chain transparency.
- 6. Engage and promote sustainable approaches to suppliers.
- 7. Engaging stakeholders to identify and understand the challenges in adopting RSPO certification.
- 8. Being a fully integrated company (e.g. Producers, traders, processors, manufacturers, wholesalers), we utilize our role in the sustainable palm oil supply chain to exercise influence in market, by progressively increasing or try to maintain the sales volume of RSPO certified palm oil as high as a high proportion of the total volume of palm oil we produce.
