

Particulars

About Your Organisation

1.1 Member Name

OLEOFLORES S A S

1.2 Membership Number

2-0530-14-000-00

1.3 Membership Sector

Palm Oil Processors and/or Traders

1.4 Membership Category

Ordinary

1.5 Country

Colombia

2.0 Does your company or organisation produce, process, consume or sell any palm oil or any products containing derivatives of palm oil?

Yes

2.1 Please select ALL the palm oil-related activity(ies) that describe your company or organisation as multiple selections are allowed. ACOP reporting is NOT limited to the primary sector of the member's RSPO membership. You will be required to complete the relevant ACOP section based on your selection(s).

- ☒ I own and operate oil palm estate(s)
- ☐ I represent a palm oil Independent Smallholder farmer Group
- ☒ I own and operate palm oil mills
- ☒ I own and operate palm kernel crushing plants - Processors and/or Traders
- ☒ I trade or broker palm oil, palm kernel oil or related products - Processors and/or Traders
- ☒ I am a refiner of palm oil or palm kernel oil - Processors and/or Traders
- ☒ I am a processor of intermediate (B2B) palm oil, palm kernel oil or related fractions/derivatives - Processors and/or Traders
- ☐ I am a B2B distributor or wholesaler of palm oil, palm kernel oil or related products - Processors and/or Traders
- ☐ I manufacture final consumer (B2C) products containing palm oil, palm kernel oil or related products. This includes products manufactured by 3rd party contractors - Consumer Goods Manufacturers
- ☐ I retail final consumer (B2C) products containing palm oil, palm kernel oil or related products - Retailers
- ☐ I operate food retail outlets that use palm oil, palm kernel oil or related products - Retailers
- ☐ I am a conservation and environmental NGO supporting the sustainable development of the palm oil industry
- ☐ I am a social and human development NGO supporting the sustainable development of the palm oil industry

Grower

1. Operational Profile

1.1 Please state your company's main activities as a palm oil grower:

- ☐ Oil palm grower without palm oil mill
- ☐ Oil palm grower with palm oil mill
- ☒ Oil palm grower with palm oil mill and palm kernel crushing plant
- ☐ Independent palm oil mill
- ☐ Smallholder Group Manager

2. Operations and Certification Progress

Information in Section 2.0 - Operations and Certification Progress - is a mandatory declaration in your ACOP. This includes hectareage data, to enable the RSPO to accurately calculate certification of individual members, sectors and RSPO members as a whole. ACOP reports without reported hectareage data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Land area controlled and managed associated to palm oil

2.1.1 Please state the total number of palm oil estates, certified and uncertified, controlled or managed by the member

8

Land area controlled and managed associated to palm oil

Description	Hectares
2.1.2 Total land controlled or managed for oil palm cultivation - planted and infrastructure (hectares)	2278.00
2.1.3 Total land controlled or managed for oil palm cultivation - unplanted (hectares)	263.00
2.1.4 Total land designated and managed as HCV areas (hectares)	408.00
2.1.5 Other conservation land set aside, excluding HCV areas reported in 2.1.4 (hectares)	47.00
2.1.6 Other land under management unit (hectares)	0.00
2.1.7 Total land under scheme smallholders (hectares)	0.00
Total	2996.00

2.2 Certification progress**2.2.1 Number of management units certified under RSPO P&C Certification**

2**2.2.2 Total certified land under the RSPO P&C Certification, excluding scheme smallholders (hectares)**

1352.00**2.2.2.1 Certification progress - land under RSPO P&C Certification, excluding scheme smallholders**

45.13%**2.3 In which countries are your estates located?****2.3.1 Indonesia - Please indicate which province(s)**

-**2.3.2 Malaysia - Please indicate which state(s)**

-**2.3.3 Other - Please indicate which country/countries**

Colombia**2.4 New plantings and development (excluding replanting)****2.4.1 How much new land was planted by your company during this reporting period (hectares)?**

0.00

2.5 Supply of Fresh Fruit Bunches (FFB)**2.5.1 Total FFB volume produced by estates managed or controlled by your company (tonnes)**

45000.00**2.5.1.1 Total certified FFB volume produced by certified estates managed or controlled by your company (tonnes)**

19198.00**2.5.1.2 Certification progress - Certified FFB volume produced by estates managed or controlled by your company**

42.66%**2.5.2 In addition to FFB produced by your company's estates, does your supply base include any of the following?**

- ☐ Scheme Smallholders
☒ Independent Smallholders
☐ Outgrowers
☒ Other Third-Party Suppliers

2.5.4 Independent smallholder operations that supply your operations:**2.5.4.1 Total FFB volume supplied by independent smallholders (tonnes)**

254292.00**2.5.4.2 Total certified FFB volume supplied by independent smallholders (tonnes)**

0.00**2.5.4.3 Certification progress - Certified FFB volume supplied by independent smallholders**

0.00%**2.5.6 Other Third-party supplier operations that supply your operations:****2.5.6.1 Total FFB volume supplied by third-party suppliers (tonnes)**

330970.00**2.5.6.2 Total certified FFB volume supplied by third-party suppliers (tonnes)**

0.00**2.5.6.3 Certification progress - Certified FFB volume supplied by third-party suppliers**

0.00%

2.6 Fresh Fruit Bunches (FFB) processing and production operations

2.6.1 Number of palm oil mills operated

3

2.6.2 Number of palm oil mills certified under RSPO P&C

1

2.7 Palm Kernel processing and production operations

2.7.1 Number of palm kernel crushers and/or palm kernel mills operated

1

2.7.2 Number of palm kernel crushers and/or palm kernel mills certified under RSPO Supply Chain Certification (SCC)

1

3. Palm Oil and Certified Palm Oil Production

Information in Section 3 - Palm Oil and Certified Palm Oil Production - is a mandatory declaration in your ACOP. This includes volume, to enable the RSPO to accurately calculate production uptake on a member, sector and total level. ACOP reports without reported volume data will be considered incomplete and will not be accepted.

3.1 Total Crude Palm Oil produced (tonnes)

Countries/Regions	Tonnes
Malaysia	0.00
Indonesia	0.00
Latin America	112432.00
Africa	0.00
Thailand	0.00
Rest of the World	0.00
Total	112432.00

3.2 CSPO sold as RSPO certified

Description	Tonnes
Identity Preserved (IP)	0.00
Segregated (SG)	0.00
Mass Balance (MB)	6270.00
RSPO Credits	0.00
Total	6270.00

3.5 Total CSPO sold

Description	Tonnes
3.2 CSPO sold as RSPO-certified	6270.00
3.3 CSPO sold under other certification schemes	0.00
3.4 CSPO sold as conventional	0.00
Total	6270.00

3.6 According to the volume information you have provided in this questionnaire, CSPO represents the following percentage of your total CPO production

5.58%

3.7 Based on total CSPO volumes sold (Question G.3.6) , please estimate the percentage of the volumes originating from your operations in the following regions/countries

Countries/Regions	Percentage
Malaysia	0
Indonesia	0
Latin America	100
Africa	0
Thailand	0
Rest of the World	0

3.8 Total Palm Kernel produced (tonnes)

Countries/Regions	Tonnes
Malaysia	0.00
Indonesia	0.00
Latin America	12337.00
Africa	0.00
Thailand	0.00
Rest of the World	0.00
Total	12337.00

3.9 CSPK sold as RSPO certified

Description	Tonnes
Identity Preserved (IP)	0.00
Segregated (SG)	0.00
Mass Balance (MB)	304.00
Total	304.00

3.12 Total CSPK sold

Description	Tonnes
3.9 CSPK sold as RSPO-certified	304.00
3.10 CSPK sold under other certification schemes	0.00
3.11 CSPK sold as conventional	0.00
Total	304.00

3.13 According to the volume information you have provided in this questionnaire, CSPK represents the following percentage of your total Palm Kernel production

2.46%

3.14 Based on the CSPK sold volumes (Question G.3.12), please estimate the percentage of volumes originating from your operations in the following regions/countries:

Countries/Regions	Tonnes
Malaysia	0
Indonesia	0
Latin America	100
Africa	0
Thailand	0
Rest of the World	0

4. TimeBound Plan**4.1 Which year did your company achieve (or plans to achieve) its first RSPO P&C certification?**

2016

4.2 Which year did your company achieve (or plans to achieve) 100% RSPO certification for all its estates and mills?

2030

4.2.1 If the previous target year for G.4.2 has not been met, please explain why

We have an RSPO-approved Time Bound Plan, which sets November 2026 as the deadline for achieving certification of our MLB palm oil mill and owned estates located in this region. We are currently in the active implementation phase of the certification process, addressing all requirements established by the RSPO standard, including social, environmental, legal, and operational components. The achievement of sustainability objectives is progressing in line with the established timeline and within the period authorized by RSPO.

4.4 Which year did your company achieve (or plans to achieve) 100% RSPO certification for all FFB, regardless of source?

2035

4.4.1 If the previous target year for G.4.4 has not been met, please explain why

1. Challenges in labor formalization for small and medium-scale farmers in various regions.
2. Commercial complexities due to unfair practices that do not ensure full loyalty in fruit supply.
3. High costs associated with technical studies such as HCV/HCS, LUCA, EISA, CLIP, and ARC.
4. High costs in the implementation of improvements, including documentation, infrastructure, signage, and health and safety conditions.
5. Limitations of internal staff capacity to address all aspects of sustainability with each of the small and medium-scale oil palm growers in the regions.
6. The RSPO standard presents evolving requirements each year, increasing operational and technical complexity.
7. Competition from extractors in areas without sustainability or RSPO compliance requirements, discouraging the adoption of sustainable practices or even leading to their abandonment.
8. Presence of armed conflicts in some of the regions where we operate.
9. Resistance to change among some producers, driven by the perception that sustainability does not provide immediate benefits.
10. Instability in public policies or regulatory frameworks, creating uncertainty for long-term planning and investment.

5. Concession Boundaries

5.1 The RSPO General Assembly Resolution 6G (2013) calls for all members with Grower operations to submit their concessions boundaries through ACOP. Has your company submitted complete concession boundaries up to supply base level to the RSPO in previous ACOP cycles as per Formatting Requirements for Plantation Boundary Data Submission Guidelines?

Yes

5.2 Has your company either acquired any new concession sites, have any concession sites changed ownership or change its boundaries since the previous ACOP submission?

Yes

5.3 Please upload your company's updated estate location concession boundaries here. This requirement only applies if your company has made changes to its concession boundaries from previous submissions in ACOP or if the member is submitting concession boundaries through ACOP for the first time

Poligonos Grupo Empresarial Oleoflores.rar

6. GHG Footprint

6.1 Has your company started quantifying its GHG emissions and monitoring?

Yes

6.1.1 Yes. Please state the year when your company started tracking and monitoring.

2022.0

6.2.1 What is the average GHG emissions by hectare (tCO₂e/ha) for all certified management units in this reporting year?

5.9

6.2.2 What is the average GHG emissions per tonne of crude palm oil (tCO₂e/tCPO) for all certified management units in this reporting year?

0.02

6.3 What are the key emission sources identified by your company in certified management units?

- ☒ Land use change
- ☐ Existing cultivation peatland
- ☒ Palm oil mill effluent (POME)
- ☒ Fertiliser application
- ☐ Others

Others

-

6.4.1 Does your company have a long-term target?

Yes

6.4.1.1 Yes. Kindly provide your company target(s).

Yes. Oleoflores S.A.S has established the progressive reduction of its Greenhouse Gas (GHG) emissions footprint as one of its long-term goals. This objective is aligned with our corporate sustainability strategy and the RSPO's guidelines for climate change mitigation. Currently, the company is engaged in:

1. Measuring and regularly monitoring its GHG footprint across both agricultural and industrial operations.
2. Implementing low-carbon practices, including energy efficiency, responsible fertilizer use, effluent treatment, and logistics optimization.
3. Investing in clean technologies and emission reduction projects, such as biodigesters and biogas recovery systems.
4. Strengthening internal capabilities for carbon management across the entire value chain.

This long-term goal reflects Oleoflores S.A.S's commitment to sustainable, climate-responsible palm oil production.

6.4.2 What is your baseline year for setting the target?

2030

6.4.3 What is your target baseline (average tCO₂e/tCPO)?

3.00

6.5 Does your company have an annual GHG emissions reduction/minimising target?

Yes

6.5.1 What is your company's annual GHG emissions reduction/minimising target (in absolute tCO₂e/tCPO or in percentage terms)?

3

6.5.2 What is your company's annual GHG emissions reduction/minimising target (in absolute tCO₂e/tCPO or in percentage terms)?

2030

6.5.3 What measures are currently being taken to reduce GHG emissions?

Oleoflores S.A.S is currently implementing several actions to reduce Greenhouse Gas (GHG) emissions across its agricultural and industrial operations, including:

1. Improving energy efficiency through optimization of boilers, engines, and steam systems at the palm oil mill.
2. Rational use of nitrogen-based fertilizers on plantations, including soil analysis-based application and the use of lower-emission sources.
3. Reuse of organic residues from the milling process (e.g., empty fruit bunches, treated effluents) as field amendments, reducing reliance on external inputs.
4. Strengthening Climate-Smart Agriculture (CSA) practices, such as maintaining ground cover, integrated soil management, and use of cover crops.
5. Monitoring the carbon footprint using technical tools like RSPO PalmGHG to establish baselines and evaluate the effectiveness of implemented measures.
6. Continuous training of operational and technical staff on GHG mitigation practices and sustainable environmental management.

7. Support for Oil Palm Smallholders

7.1 How is your company supporting Independent Smallholder groups?

- ☒ Sourcing of physical FFB
- ☒ Financial support
- ☒ Operations support
- ☒ Training support
- ☒ Community development
- ☐ Not supporting Independent Smallholder groups
- ☒ Others

Others

Oleoflores S.A.S supports groups of independent smallholders through a comprehensive strategy aimed at improving their sustainability, productivity, and inclusion in responsible value chains. The actions implemented include:

1. Development of model farms that adopt sustainable practices, providing an environment where producers can be inspired to implement RSPO standards.
2. Creation of a platform that facilitates sustainability diagnostics and monitoring across all farms, promoting transparency and continuous improvement.
3. Organization of sustainable field days aimed at small and medium-scale producers to encourage cultivation under sustainable practices.
4. Implementation of international collaboration projects to provide economic support to producers, including internal and external audits, specialized studies, training, technology, data collection equipment, and traceability systems, as well as hiring professionals specialized in environmental issues.
5. Technical, social, financial, and legal support tailored to the specific needs of producers.
6. Promotion of generational renewal and the empowerment of rural women to strengthen long-term social sustainability.
7. Support in land tenure management, facilitating formalization processes and conflict resolution.
8. Implementation of digital traceability systems from farm to mill.
9. Financial education and banking inclusion to improve access to credit and financial services.
10. Facilitation of access to quality agricultural inputs through collaborative purchasing schemes or strategic partnerships.

7.1.1 Please provide the names and locations of the oil palm Independent Smallholder groups that you are currently supporting. This question is not mandatory, and is left to the discretion of the RSPO member to answer.

Geographic Areas Supported by Oleoflores S.A.S for Smallholders

Oleoflores S.A.S supports small oil palm producers in strategic regions across northern Colombia. The areas of support include:

1. María La Baja (Bolívar): Located in Colombia's Caribbean region, this area has a strong agricultural vocation and is undergoing social reconstruction in post-conflict settings.
2. Repelón (Atlántico): A hot lowland region with agricultural potential and rural producer groups transitioning toward sustainable production.
3. Departments of Cesar and La Guajira: Neighboring regions with suitable soils for oil palm cultivation, where Oleoflores works with smallholders on sustainability and technical capacity building.
4. Montería (Córdoba): A key agricultural hub in the Caribbean region, where smallholders play a central role in sustainable rural development.
5. Tibú (Norte de Santander): Located in the Catatumbo region, a biodiverse and socially complex area near the Venezuelan border, where responsible palm cultivation is promoted as a sustainable livelihood alternative.

8. Actions For Next Reporting Period

8.1 Outline activities that your company will undertake in the coming year to advance its certification efforts.

1. Follow up and close gaps in the sustainability index applied to all producers in the MLB, Tibú, and Codazzi zones.
 2. Conduct feasibility analyses in the different zones to begin supporting producers in certification under sustainability standards such as RSPO and APS.
 3. Implement continuous training programs in the different regions on environmental, social, and productive issues for all producers who supply us with Fresh Fruit Bunches (FFB).
 4. Strengthen the loyalty process of the producers who supply us with FFB in the various regions.
 5. Maintain social welfare programs with the producers who supply us in the MLB, Tibú, and Codazzi areas.
 6. Engage with medium and large independent suppliers to promote the adoption of good practices in FFB management across the different zones.
 7. Subscribe to international and national cooperation projects to support the implementation of sustainable practices, technological tools, and certification processes with small and medium producers in the MLB and Tibú areas.
 8. Fund and co-fund specific studies required by RSPO for the certification of small, medium, and large producers, such as: High Conservation Value (HCV) assessments, High Carbon Stock (HCS) assessments, GEI, LUCCA, .Environmental and Social Impact Assessments (ESIA) y CLIP
 9. Carry out internal audits and diagnostics in the different regions to assess feasibility and follow up on the closing of sustainability gaps.
 10. Establish model farms implementing good sustainable practices, where producers are taken to be inspired in the implementation of the RSPO standard.
 11. Organize sustainable field days with small and medium-sized producers to promote crop cultivation using good sustainability practices.
-

8.2 Outline activities that your company will undertake in the coming year to promote the uptake CSPO along the supply chain.

1. Follow up and close gaps in the sustainability index applied to all producers in the MLB, Tibú, and Codazzi zones.
 2. Conduct feasibility analyses in the different zones to begin supporting producers in certification under sustainability standards such as RSPO and APS.
 3. Implement continuous training programs in the different regions on environmental, social, and productive issues for all producers who supply us with Fresh Fruit Bunches (FFB).
 4. Strengthen the loyalty process of the producers who supply us with FFB in the various regions.
 5. Maintain social welfare programs with the producers who supply us in the MLB, Tibú, and Codazzi areas.
 6. Engage with medium and large independent suppliers to promote the adoption of good practices in FFB management across the different zones.
 7. Subscribe to international and national cooperation projects to support the implementation of sustainable practices, technological tools, and certification processes with small and medium producers in the MLB and Tibú areas.
 8. Fund and co-fund specific studies required by RSPO for the certification of small, medium, and large producers, such as: High Conservation Value (HCV) assessments, High Carbon Stock (HCS) assessments, GEI, LUCCA, .Environmental and Social Impact Assessments (ESIA) y CLIP
 9. Carry out internal audits and diagnostics in the different regions to assess feasibility and follow up on the closing of sustainability gaps.
 10. Establish model farms implementing good sustainable practices, where producers are taken to be inspired in the implementation of the RSPO standard.
 11. Organize sustainable field days with small and medium-sized producers to promote crop cultivation using good sustainability practices.
-

Processors & Traders

1. Operational Profile

1.1 Please state your company's main activity within the palm oil supply chain.

- ☒ Refiner of CPO and PKO
- ☒ Palm Kernel Crusher
- ☐ Trader with Physical Possession
- ☐ Trader without Physical Possession
- ☒ Integrated Refiner-Trader-Processor
- ☒ Intermediate Products Producer
- ☐ Power, Energy and Biofuel Processor
- ☐ Animal Feed Producer
- ☐ Oleochemicals Producer
- ☐ Distribution & Logistics
- ☐ Other

Other

-

2. Palm Oil and Certified Sustainable Palm Oil Consumption

Information in Section 2.0 - Palm Oil and Certified Sustainable Palm Oil Sourcing is a mandatory declaration in your ACOP. This includes volume data on palm oil, palm kernel oil and related products consumed of individual members, sectors and RSPO members as a whole. ACOP reports without reported volume data will be considered as incomplete and will not be accepted. Incomplete ACOP reports may lead to suspension or termination of RSPO membership.

2.1 Please include details of all certified and uncertified operations using palm oil, palm kernel oil and related products, owned and/or managed by the member and/or all entities that belong to the group.

Oleoflores Group has 3 mill (FFB and CPO), 1 expeller/crusher (PK and PKO), 1 refinery, margarine and shortening factory.

2.1.1 In which markets do you sell goods with palm oil and palm oil-related products?

Europe, North America, Latin America

DL.2.0 In order to facilitate ease of reporting and transparency, RSPO members operating within the palm oil demand supply chain can now choose to report palm oil and palm oil product volumes on:

an aggregate level (as in previous ACOP reporting cycles)

2.2 Total volume of RSPO-certified (IP, MB, SG and RSPO Credits/Book and Claim) and Non RSPO-certified palm oil, palm kernel oil and related product sourced in the year

Description	Tonnes
Crude palm oil, including derivatives refined from CPO (tonnes)	111802.00
Crude palm kernel oil, including derivatives refined from CPKO (tonnes)	12666.00
Crude palm kernel expeller (tonnes)	12666.00
Total	137134.00

2.3 Volume of RSPO-certified palm oil, palm kernel oil and related products sourced in the year (tonnes):

Description	Crude Palm Oil (CSPO) and CSPO Derivatives	Crude Palm Kernel Oil (CSPKO) and CSPKO Derivatives	Palm Kernel Expeller (CSPKE)
RSPO Credits from Mill / Crusher	0.00	0.00	0.00
RSPO Credits from Independent Smallholder	0.00	0.00	0.00
Mass Balance (MB)	6270.00	625.00	304.00
Segregated (SG)	0.00	0.00	0.00
Identity Preserved (IP)	0.00	0.00	0.00
Total	6270.00	625.00	304.00

2.4 According to the volume information you have provided in Question PT.2.2 and Question PT.2.3, your company's certified palm oil, palm kernel oil and related products uptake is:

5.25%

2.4.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake calculated in PT.2.4. This may include changes due to business environment, evolving nature of operations or variations due to stock positions

Sales are destined to intermediaries and final processors in the palm oil production chain (Food and Soap factories).

2.5 What is the estimated percentage of Certified Sustainable Palm Oil in the palm oil, palm kernel oil and related products sold, traded or processed by your company in the following regions:

Countries/Regions	Percentage
Europe	0
North America	0
Malaysia	0
Indonesia	0
China	0
India	0
Latin America	100
Africa	0
Rest of World	0

3. TimeBound Plan

3.1 Which year did your company achieve (or expects to achieve) the RSPO supply chain certification or RSPO trader/distributor licence?

2016

3.2 Which year did your company start (or expect to start) to source any RSPO-certified palm oil and oil palm products?

N/A

3.2.1 If the previous target year has not been met, please explain why.

-

3.3 Which year did your company achieve (or expects to achieve) 100% RSPO certification of all palm product processing facilities.

N/A

3.3.1 If the previous target year has not been met, please explain why.

-

3.4 Year expected to only source RSPO-certified palm oil and oil palm products.

2030

3.4.1 If target has not been met, please explain why.

-

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member operates, please explain why

-

4. Actions For Next Reporting Period

4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

- ☒ Participation in RSPO Working Group or Task Forces
- ☒ Support Independent Smallholders (ISH)
- ☐ Contribute to the RSPO Smallholder Trainer Academy
- ☐ Financial contribution to the RSPO Smallholder Support Fund
- ☒ Direct investments in Smallholder Certification projects
- ☐ Involvement/direct investments in Jurisdictional/Landscape approach
- ☒ Direct/collective investments in conservation and restoration initiatives
- ☒ Financial contribution to support members with Remediation and Compensation (RaCP) process, direct/collective investments in conservation and restoration initiatives
- ☐ Allocating FTE to promote the production or consumption of certified sustainable oil palm products
- ☒ Specific policies and action plans by the member to promote CSPO production or consumption in the upstream or downstream supply chain, including target dates or broader policies that include such efforts
- ☐ No activities planned
- ☐ Others

Other

-

Challenges and Support

1.1 What significant obstacles or challenges has your company encountered in the promotion of certified sustainable palm oil (CSPO)? What efforts has your company taken to address these obstacles or challenges?

- ☐ Awareness of RSPO in the market
- ☒ Difficulties in the certification process
- ☒ Certification of smallholders
- ☐ Competition with non-RSPO members
- ☒ High costs in achieving or adhering to certification
- ☐ Human rights issues
- ☐ Insufficient demand for RSPO-certified palm oil
- ☐ Low usage of palm oil
- ☐ Reputation of palm oil in the market
- ☐ Reputation of RSPO in the market
- ☒ Supply issues
- ☒ Traceability issues
- ☐ No challenges faced
- ☐ Others

Others

-

1.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- ☒ Communication and/or engagement to transform the negative perception of palm oil
- ☒ Engagement with business partners or consumers on the use of CSPO
- ☒ Engagement with government agencies
- ☒ Engagement with peers and clients
- ☐ Promotion of CSPO through off product claims
- ☒ Promotion of CSPO outside of RSPO venues such as trade workshops or industry associations
- ☐ Promotion of physical CSPO
- ☒ Providing funding or support for CSPO development efforts
- ☐ Research & Development support
- ☒ Stakeholder engagement
- ☐ No actions taken
- ☐ Others

Others

-

1.3 If your company has any other publicly-available reports or information regarding its palm oil-related policies and activities, please provide the links here

<https://oleoflores.com/>
