62.81%

2.5.1 Please provide additional information on your certified palm oil, palm kernel oil and related products uptake. Since 2019, US Foods has maintained a commitment that 100% of the crude palm oil or palm kernel oil used in our Exclusive Brands products be from certified sustainable sources, as defined in our Responsibly Sourced Palm Oil Policy, available at usfoods.com/sustainability. Exclusive Brands products are products sold under US Foods' brands, while Manufacturer Brand products are other companies' products we stock for the convenience of our customers.

Product-level alignment with this Policy is reviewed annually by members of our Food Safety and Quality Assurance, Product Development, and Category Management teams. We have also incorporated our Responsibly Sourced Palm Oil Policy into our Supplier Code of Conduct to help address potential environmental and social risks associated with palm oil production.

Beginning in 2024, we adopted additional due diligence procedures related to our efforts to verify compliance with our Responsibly Sourced Palm Oil Policy for all Exclusive Brands products containing palm oil, palm kernel oil or palm oil derivatives. These procedures include directly engaging our suppliers of Exclusive Brands products containing palm oil, palm kernel oil or palm oil derivatives to collect and assess information about their No Deforestation, No Peat, No Exploitation (NDPE) commitments or related policies, their purchased palm oil, palm kernel oil or palm oil derivative volumes for US Foods' Exclusive Brands products in the reporting year, and the certification status of the reported palm volume. The results of the enhanced due diligence procedures indicated that, despite all Exclusive Brands suppliers holding active RSPO certificates, some of the crude palm oil used in US Foods' Exclusive Brands products in 2024 was not RSPO certified.

We are actively working with suppliers to resolve these non-compliances, including quantifying the volume of any palm oil not certified in 2024 and establishing plans to facilitate certification going forward. We have also expanded our internal training related to our Responsibly Sourced Palm Oil Policy to ensure our teams understand our sourcing requirements for the palm oil and palm kernel oil used in our Exclusive Brands products.

Note, we are unable to distinguish between the volume of palm oil, palm kernel oil or palm oil derivatives used in US Foods' Exclusive Brands products associated with Consumer Goods Manufacturing or Retailing and so are reporting the same palm volumes for each.

2.6 Please estimate the regional distribution of your company's RSPO certified palm oil, palm kernel oil and related products (as declared in Question RT.2.4) in the following countries/regions:

Countries/Regions	Percentage
Europe	0
North America	100
Malaysia	0
Indonesia	0
China	0
India	0
Latin America	0
