We have been committed to the RSPO program since 2010. In 2011, we joined the RSPO as a regular member. In December 2011, we certified our plant and its supply base AGRIVAR is an independent oil mill that does not have its own plantations. For the purposes of palm oil production, we have agreed with small oil palm producers assembled in cooperatives that we have organized to engage in the process of sustainable production of palm oil,

AGRIVAR is an independent oil mill that does not have its own plantations. For the purposes of palm oil production, we have agreed with small oil palm producers assembled in cooperatives that we have organized to engage in the process of sustainable production of palm oil As we contract with new small producers, we put them in our supply base for RSPO certification.

3.4 Which year did your company begin (or expects to begin) sourcing only 100% RSPO-certified palm oil and oil palm products.

2021

3.5 If the TimeBound Plan commitments declared above do not cover all countries in which the member sells goods with palm oil or palm oil products, please explain why

AGRIVAR is an independent oil mill which does not have its own plantations. For the purposes of palm oil production, we have agreed with small oil palm producers united in cooperatives that we have organized to engage in the process of sustainable palm oil production. When we contract with new small producers, we put them in our supply base for RSPO certification. In the same vein, each year, we continue to recruit new producers whose plantations meet the principles and criteria of the RSPO to support them in the supervision until the certification of their crops. Our goal is to increase our supply base.

3.6 How does your company proactively promote RSPO and RSPO-certified sustainable palm oil and oil palm products to your customers?

Through our dual RSPO and organic certification (EU and NOP), we offer sustainable and quality palm oil to all of our customers. We work to find customers both in Europe and in Africa with whom we exchange certified palm oil RSPO BIO. We are continuing to promote palm oil certified RSPO in different markets to acquire new customers and eventually to sell only palm oil certified RSPO

4. Actions For Next Reporting Period

4.1 Please outline activities that your company will take in the coming year to promote the production or consumption of certified sustainable palm oil (CSPO)

We have agreed with the NGO Solidaridad CÅte d'Ivoire to take a very active part in organizing 5000 small independent producers to the RSPO certification. Of course, this project will target small producers in our area of activity and will provide sufficient certified products for our independent palm oil mill which to date is the only oil palm oil mill that has the RSPO certificate. In another time, we sensitize other producers to engage in the RSPO approach with us to eventually have a sufficient supply base that will ensure that all the FFBS that enter our oil mill are certified RSPO.
