Our biggest challenge, aside from price premiums of CSPO, has been availability of supply. While mass balance is available and being purchased in North America, the infrastructure is not yet set up for true Segregated Supply. ARYZTA continues to work with customers and encourage our industry to move towards sustainable, traceable options in sourcing palm oil. 15 of our North American bakeries are currently certified to handle Mass Balance palm oil, with an annual audit to be conducted in July 2019. We currently not experiencing any challenges in Europe, where we are currently purchased Mass Balance and Segregated Supply. If and when additional ARYZTA customers outline expectations around using CSPO, we will continue to make necessary investments and provide solutions to meet their ingredient standards in those markets which are not yet using 100% CSPO.

7.2 In addition to the actions already reported in this ACOP report, what other ways has your company supported the vision of the RSPO to transform markets to make sustainable palm oil the norm?

- Others

Others

ARYZTA has ongoing dialogues with customers and suppliers around raw material sustainability, with palm oil being a major focus. By helping our customer's goal-set, and through providing proactive raw ingredient solutions, we are doing our part to help support the vision and principles of the RSPO.
